## SYNOPSIS.

**THE CITY.** Los Angeles plays king's ransom in tribute to the Insurance Trust, the fire losses being only small fraction of enormous premium collected....A clever detective plot by George C. Parsons, notorious safecracker, to commit another safecrime and hurriedly depart with him two days ahead of time....Construction begins to run across Westlake Park, but only two passengers out of forty are injured....Chamber of Commerce excursion sails for Honolulu....Tens of thousands of people try to get into Bullock's new store and many do succeed....Armour car line South Beach help for fruit shippers again search up hill at Pasadena at track meet....Polytechnic defeated by Ontario today....New York Glants to play ball here today....Good racing at Horner Club meet....Proposition to increase city revenue by heavy tax on cigarettes....Young forger gets out sentence....County assessors to begin work tomorrow.

**SOUTHERN CALIFORNIA.** Rue in Mountain school affairs issued to superintendents being put out of office....Killing of workman suspended on Pasadena skyscraper makes his condemned perform their tasks gaily....Vast schoolboy bound and soundly flogged at Lordsham....Hemet-San Jacinto High School debate arouses ill feeling between the towns....New road from Ontario to tap citrus country....Long Beach Elks plan carnival.

**PACIFIC SLOPE.** Lighthouse Board to manage for week of steamer Corona.

Praty young wife of Portland man along with more boy, deserting babies. San Francisco Board of Supervisors will seize water plant of Spring Valley Water Company....Seattle merchants have \$100,000 in merchandise tied up in freight blockade....Steamer Coronado goes aground.

**GENERAL EADY.** Immured in silent, Mrs. Eddy remains sequestered to work....Few years ago Jerome will perhaps not yet come to jury....Mail wagon is robbed in heart of Chicago.

## AMERICAN LEADERS FAVOR RE-ELECTION OF ROOSEVELT.

*Many Views of Many Men—Some Oppose "Third Term Idea"—Industrial Captains Declare President Must Stand Again.*

BY BROUGHTON BRANDENBURG.

(By DIRECT WIRE TO THE TIMES.)

**N**EW YORK. March 2.—[Exclusive Dispatch.] Whether Theodore Roosevelt is to be compelled by the American people to become his own successor as President is now and for a year will be the most important and the most discussed of all political problems.

That Mr. Roosevelt has emphatically announced his determination not to seek a second election is well known, but that the pressure to induce him to reconsider this determination is increasing daily is apparent.

In all parts of America Mr. Roosevelt is urged to take another term, the main argument advanced being that the so-called unwritten law against a third term does not apply in his case.

Some friends of Mr. Roosevelt are inclined to take him at his word and are looking elsewhere for Presidential timber. Others, just as loyal and sincere, take the opposite view and declare that his duty is paramount and that his inclinations or desires have no part in the crisis he is about to face.

There is no question existing today in which the spokesman of the political party is more divided than in this opinion; so delicately involved is the topic that the enemies of Mr. Roosevelt are careful not to stir it up, while his friends do not desire to antagonize him or make themselves ridiculous by pretending to appear as givers of advice to a man who after all will have his own way.

The writer, in order to sound the American public on the question of President Roosevelt's "succession," has consulted with herewith present the views of many leaders in various walks of life.

No man who might be reckoned as Presidential candidate was approached for his opinion, nor was any one whose official position or business situation was such that it might be injured by his expressions. Men prominent today by reason of wealth or social position were eliminated.

That the results of this inquiry are sufficiently reliable is evidenced by a perusal of opinions herewith presented. The politicians from their party lines, many Democrats, however, praising Mr. Roosevelt while they declared against another term. Men involved in gigantic industrial and commercial enterprises were unanimous in favor of another term for Mr. Roosevelt, with the exception of John Wanamaker, who says: "I agree with Senator T. M. Patterson, United States Senator, Denver, Colo.

with Chandler's letter, he consented to act, but made one proviso, illustrating it is said, his firm intent to be both. The result of this plan, however, was that at once seeing his mother and investigating her mental state before he finally committed himself to a move.

Glover and his daughter, Mary, according to the story, met Mrs. Eddie in New Jersey a day or two ago. Whatever trouble Glover may have had as to his duty were removed, it is stated, by the appearance and words of his mother.

The World also publishes a longer statement signed by Glover and his daughter in which the visits to Mrs. Eddie is described.

(George) Glover is Mrs. Eddy's only son. In December, when Mrs. Eddie was 22 years old, she was married to George Washington Glover, who had been a companion of her older brother, Samuel Baker.

After their marriage Mr. and Mrs. Glover moved to Wilmington, S. C., where Glover could obtain high wages as a brick layer. Six months afterwards he died of yellow fever and Mrs. Glover returned to her father's home in New Haven, N. H., where four months later the son was born.

It has been stated that Mrs. Eddie gave up this son when he was a baby, but Mrs. Eddie denied this. The family which cared for him, she said, told her that he was dead. She never saw him until he was 34 years old.

**PLAN TO KEEP VAST FORTUNE.**

CHRISTIAN SCIENCE WEALTH PLACED AT TEN MILLIONS.

Leaders Claim Founder of the Church Is Not Entitled to It—Determine Her Personal Interest Is but \$60,000—To Fight Off Membership and Duties.

BY DIRECT WIRE TO THE TIMES.—  
CONCORD (N. H.) March 2.—[Exclusive Dispatch.] It is declared to-night that Christian Science leaders recognize the fact that the suit begun to be a tremendous fight for the property held by the Christian Science Church, which is conservatively estimated at \$10,000,000.

While almost all of this vast amount of money was raised by Mrs. Eddy, the leaders claim that she no longer has any right to it. Inasmuch as they assert it was transferred to the church by a valid deed of trust. They declare that the property which Mrs. Eddy is possessed of at present is not worth \$40,000.

The two moves most feared by the church leaders, and the ones which will be fought the hardest, will be any attempt to have a receiver appointed, or to have a board of physicians appointed to act on behalf of Eddy's physical and mental condition.

To show to the world that Mrs. Eddy is not the mental and physical wreck she is, and that her counsel have described her son as one presumably Mrs. Eddy, was taken out for a drive today in a closed sleigh. It is claimed for her by the leaders that her mind is as alert as it was ten years ago.

The amount of money which it is claimed by the plaintiffs belongs to Mrs. Eddy, and her heirs and beneficiaries in like sum.

Alfred Farlow says: "I really know nothing about the amount of Mrs. Eddy's wealth. I figure approximately, based on knowledge of how much she gives to charities, as well as a somewhat definite knowledge of what she has given to charities, and to her trust, that she cannot possibly be worth \$10,000."

SILENT MAN OF MYSTERY IS HE.

CALVIN FRYE POWER BEHIND THE EDDY THRONE.

Former Hostler of Christian Science Leader Rises Rapidly to Responsible Position—What Is Secret of His Strange Authority?—Concord People Wonder.

BY DIRECT WIRE TO THE TIMES.—  
CONCORD (N. H.) March 2.—[Exclusive Dispatch.] With the demand for a receivership of the funds of the Christian Science Church, Concord people are thinking of the personnel of the household of Mrs. Eddy and the coterie that surrounds her.

Calvin A. Frye, the footman and secretary, the "silent man of mystery," is believed to be the power behind the throne. In every instance he has always nobly approached the founder of the church in his presence, and under circumstances which keep the aged leader always under his watchful eye.

It is Frye who signs the checks for Mrs. Eddy; it is Frye who pays the household bills; it is Frye who hands over the money occasionally donated for various purposes to the city of Concord. It is Frye that sends Frye that the city officials negotiate with. Every road official was to be transacted that required the sanction of the head of the church.

Mrs. Cannon says that when he was at Gen. Director's visited Mrs. Eddy for the purpose of investigation, Frye remained by her side, ever watchful, and that it was to him she appealed when in the least doubt about a point. And again that it was with Frye that the city officials negotiated with. Every road official was to be transacted that required the sanction of the head of the church.

She has contributed to improvements for the purpose of her daily drive. Frye has written to her that there are two bank accounts of Mrs. Eddy's money, one in his name and one in hers, and that check in his own name were honored. This probably accounts for the fact that the expenses are paid by checks from Frye personally, according to his admissions.

Next in importance to Frye in the household is Mrs. Pamela Leonard, a woman of a remarkable personality, who imitates the peculiarities of the mannerisms peculiar to the head of the church. In former years when she greeted the members of her faith and all outsiders much as a queen would her subjects.

Mrs. Leonard is a well-preserved woman, nearly 60 years old, with beautifully cut features, but a full face and figure than her leader. She has been in the Eddy household for some years, and is the constant companion of the founder of Christian Science. Her home is in Brooklyn, N. Y., and it was she whom charges were made of substitution in the daily drives of the church leader.

In any ordinary household the coach would not be an important personage, but August Mann is different. He has frequently noted as Frye's agent in business matters with the outside world, and it falls to him to drive Mrs. Eddy daily, with Frye no longer secretary, but liveried footman, on the box.

## THAW IN FEAR OF AN ASYLUM.

**Jerome May Not Let Case Go to the Jury.**

**Lunacy Commission Now Seems Probable.**

**White's Slayer Has No Dread of Death Chair.**

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, March 2.—The Thaw trial enters its seventh week Monday, and it would seem that unless some change in the course of procedure occurs, it will be at least two weeks and possibly three before the jury renders a verdict.

That Dist.-Atty. Jerome has no intention of letting the case go to the jury, if he can possibly prevent it, there appears to be no doubt. The prosecutor has made it perfectly plain he would rather have the matter come before a commission in lunacy.

Jerome does not believe that Thaw is in a proper condition of mind to be on trial. Time after time, when Daniel, the leading attorney for the defense, has interrupted him, during his cross-examination of witnesses, with objections of various kinds Jerome has retorted hotly:

"You bring me into this."

The District Attorney, especially, had no taste for the cross-examination of Evelyn Nesbit Thaw. He endeavored to avoid it by having the experts testify first, hoping to gain from them some information concerning Thaw's present state of mind upon which to predicate an application for a commission in lunacy and the suspension of the trial.

Jerome realized that he must be sure of his ground before asking for a commission and he will not take that chance until he is satisfied that Thaw's insanity was of a lasting character.

Dr. Allen McLane Hamilton, who was employed for a time by the defense, and who visited Thaw in the Tombs, expects to be the most important expert witness for the prosecution. Dr. Hamilton is known to have expressed the opinion that Thaw's insanity was of a lasting character.

Jerome was laying the foundation for Dr. Hamilton's testimony when he asked Dr. Hamilton whether for Dr. Hamilton's sake he would not regard him highly as an authority on various diseases. Dr. Evans refused to give the point under consideration. The judge also received decision as to whether Jerome should be permitted to quote from various medical works on the effects of various mental diseases.

Thaw seems apprehensive of his fate only as it relates to an asylum for the insane. The thought of the death chair, it is said, has entered his mind. He has been in constant fear, however, that there might be a conspiracy to "railroad" him to his doom.

Dr. Britton D. Evans, who declared Dr. Hamilton's opinion to be "rubbish," when he shot White, will upon the stand Monday. It will make his fourth day under cross-examination.

Evelyn Nesbit Thaw, Mrs. William Thaw and the Countess of Yarmouth visited the defendant in the Tombs to-day.

**HE HEARD WHITE THREATEN.**

SAW THAW SHOT, HE SAYS.

[BY DIRECT WIRE TO THE TIMES.—  
PENSACOLA (Fla.) March 2.—[Exclusive Dispatch.] Daniel Cannon, a postoffice clerk, declares he was a witness to the killing of Stanford White by Harry K. Thaw. Cannon related to Dist.-Atty. J. B. Gherard that he was standing within ten feet of Thaw when he shot White, and also that two nights previous, in a restaurant in New York, he heard White tell near White and heard the latter make the statement that he intended killing Harry Thaw.

He recurred the District Attorney to telegraph to New York and ask if such testimony was desired and if so he would go there and appear before the court.

The custom's receipts at Havana in February amounted to \$14,482,000, compared with \$13,612,000 in the corresponding month last year, a decrease of \$826,000.

**HEAVY WOMAN DIES OF FAT.**

Weighed Quarter-ton and Was so Large She Could Not Go Through Door.

[BY THE ASSOCIATED PRESS—A.M.]

FRANKFORT (Ky.) March 2.—Q. Beckham has determined to send troops to Kentucky next week during the trial of James C. Clegg, a coal miner, for the murder of Judge Carnes. Thursday morning, he will be accompanied from Lexington by fifty men from the Kentucky National Guard and the Lexington company of the International Laundry Workers.

**CRIME BRIEFS.**

Troops at Murder Trial.

CHICAGO, March 2.—The death of a woman weighing 550 pounds was buried with some difficulty yesterday. It was that of Mrs. William Maurer, 54 years of age, wife of Detective William Maurer of the West Chicago avenue Police Station, who died Wednesday of fatty degeneration of the heart.

A derrick of the kind used in moving pianos was necessary to remove the body from the house. A piano-mover superintendent undertook the undertaking. The derrick was fastened to the roof of the house. The sash and frames of the window had to be removed. A special casket thirty-seven inches in width and weighing 245 pounds was necessary. This was bound with iron hoops and required ten men to carry it. The largest hearse in the city bore the remains to Rose Hill.

For seven years Mrs. Maurer had not left her home because of her inability to pass through the doorways. During the days preceding her death, she had been in a seemingly-dying condition, having been unable to breathe well because of her weight. Mrs. Maurer's condition had been a complete puzzle to physicians.

Mrs. Leonard is a well-preserved woman, nearly 60 years old, with beautifully cut features, but a full face and figure than her leader. She has been in the Eddy household for some years, and is the constant companion of the founder of Christian Science. Her home is in Brooklyn, N. Y., and it was she whom charges were made of substitution in the daily drives of the church leader.

In any ordinary household the coach would not be an important personage, but August Mann is different. He has frequently noted as Frye's agent in business matters with the outside world, and it falls to him to drive Mrs. Eddy daily, with Frye no longer secretary, but liveried footman, on the box.

**LABOR BRIEFS.**

Employees to Get \$417,000.

[SAN FRANCISCO, March 2.—In a statement to the public, President Frank Mullaly, it appears that the awards decided upon by the Board of Arbitration, which laborers were concluded yesterday, will remain in the payment of \$417,000 to the United Railroads to its unionized employees, who went out on strike last summer. The awards were to be made by the board means to the company an additional yearly disbursement of \$1,000,000.

The Duke of Puglie, eldest son of the Duke of Puglie, who had been jumping his horse over obstacles in the park, was killed at Naples, fell and dislocated his right shoulder. The shoulder was put back into its proper place a few hours later.

**EUROPEAN STEAMSHIP OFFICE.**

Travel to Europe of Curious and around the world. Steamer to San Diego every Monday and Wednesday. Rate one way \$125.00, round trip \$250.00. Steamer to San Francisco, Kureka, Portland, Gray's Harbor, Seattle and Tacoma. C. J. Lehman, 22 South Spring Street. Phone—Main 98; House 4200.

## SAYS THAT HE BRIBED POLICE.

[BY DIRECT WIRE TO THE TIMES.]

SALT LAKE (Utah) March 2.—[Exclusive Dispatch.] Turning State's evidence, W. H. Parent, arrested in Denver a few weeks ago for participating in the robbery of the McWhirter brothers in this city, September 12 last, gave testimony which, if true, places Chief of Police George Sheets high in the gallery of municipal grafters.

Incidentally, Parent implicated Detective Raleigh and Attorney Newton, and confessed to having been a "big smit" man for three years, operating his game in most of the big cities of the country and having suffered arrest several times.

At the preliminary hearing today of Sheets, charged with conspiracy, Parent said he was trying to protect him and other "big smit" men.

On two occasions, he said, he was paid to protect the McWhirter brothers, and he was not able to do so.

He was asked if he had been approached by the police to bribe the chief of police.

He said he had been approached by the police to bribe the chief of police.

He was asked if he had been approached by the police to bribe the chief of police.

SACRAMENTO.

## LITTLE TO SHOW FOR EIGHT WEEKS' WORK.

*What the California Legislature Has Done During Its Present Session. Thousands of Bills, but Less Than Dozen Important Laws Enacted.*

BY FRANK GREAVES.

BY DIRECT WIRE TO THE TIMES.]

SACRAMENTO, March 2.—[Exclusive Dispatch.] Although eight weeks of the thirty-seven session of the California Legislature have passed, no more than a dozen laws have been enacted of more than passing interest, and but few of great importance. Bills innumerable have been passed for the repair and improvement of public institutions, for the good of the school system, for public health, and for code revision, but aside from these, little has been written so far on the pages of legislative history.

With these more or less important measures out of the way and with the decks pretty well cleared for action, it may be that the lawmakers will close the session in a blaze of glory by passing some of the bills in which public interest centered.

For instance, the bill made by the railroad company and its legislative tools to come from the "bad order" track; that the anti-race-track gambling bill will run the final heat.

THESE BILLS HAVE PASSED.

Among the most important measures that have passed both houses are the following:

A bill creating a State Board of Engineering, which will dispense professional commissions, and through which it is expected great saving will be accomplished to the accompaniment of the public interest of the state.

The Held-Wright direct primaries amendment, through which the people at the next election will determine whether or not to clothe the next Legislature with power to enact such laws as will provide for direct primaries.

A pure food law, similar in all its essentials to the national act.

A law that is designed to prevent deception in the sale of fruit trees.

The miners liability law, for the benefit of employes, insuring the performance of their duties, and for their families in the event of fatalities.

A bill appropriating \$800,000 for the rebuilding of Agnews Insane Asylum, destroyed by the earthquake.

An appropriation of \$1,000 for a university farm at Davisville.

A bill preventing the docking of horses' tails.

A bill authorizing the sale of the Normal School property at Los Angeles for \$500,000 or more.

A bill empowering railroad companies to condemn rights of way for more than two tracks, and widening the right of way from nine to ten rods.

A bill authorizing residents of any part of the State to form protection districts for the control of overflow from unnavigable streams.

With a bill, the Governor has signed none of these measures.

Another bill that has been passed, but which is doomed to defeat at the hands of the Governor, fixes the minimum wage for laborers on public work at \$1.50 a day.

In addition to the bills named, there were approved many of purely local interest in various sections.

THE MOST IMPORTANT MEASURE.

The General Appropriation Bill, calling for some \$5,000,000 for the running expenses of the State for the next two years, has been passed by the Assembly, practically as recommended by the Ways and Means Committee. It now is in the Senate, where numerous amendments have been made, increasing the total very considerably. These amendments are bound to meet with disapproval in the lower house, and a lively tussle will follow.

Insurance legislation has been an object of exhaustive discussion in committee, and the legislators are coming along, though slowly, along unfamiliar paths. The result as far as has been the addition by the Senate of several measures, including one that provides for a standard form of fire insurance in California. This may be before the Assembly committee, and with other insurance matters, probably will be put on its final passage within a few days.

The defeat of the anti-prize fight bill is in sight, though it is not yet clear whether the capital will be at Sacramento, Berkeley or Tempe. It is true that Sacramento in January and February, the months in which the Legislature meets, is in a dead lock, and the assessment rolls of Alameda county, Parker and Burke represent a political power, they do not represent the people. They are the paid tools of a corporation, and members have been represented with having their bills killed if they don't vote for this measure. I refuse their mandates, I split upon their authority. It is a campaign of vilification started by Louis

Hutton, Burke and Parker jumped at the opportunity to cast aspersions on the other parts of the Legislature, and they have their say in the vote of the Senate and Assembly to move the capital.

So far as Southern California and other parts of the State are concerned, it is probably matter little whether the capital be at Sacramento, Berkeley or Tempe. It is true that Sacramento in January and February, the months in which the Legislature meets, is in a dead lock, and the assessment rolls of Alameda county, Parker and Burke represent a political power, they do not represent the people. They are the paid tools of a corporation, and members have been represented with having their bills killed if they don't vote for this measure. I refuse their mandates, I split upon their authority. It is a campaign of vilification started by Louis

Hutton, Burke and Parker jumped at the opportunity to cast aspersions on the other parts of the Legislature, and they have their say in the vote of the Senate and Assembly to move the capital.

Three hundred and forty-four Senate bills have passed by the upper house; ninety-four of these have passed both houses. The Assembly has passed 40 of its own bills; of these 111 so far have met with the approval of the Senate who voted that way.

BUSHES OF BILLS.

Into the hopper of the legislative mill there have poured a total of 2000 bills of all descriptions 1886 in the Assembly and 1906 in the Senate. Although the Legislature is practically on the eve of adjournment, little more than one-half of these bills have passed both houses. Fifty-five Assembly and thirty-four Senate measures have been signed by the Governor; three Assembly and two Senate bills have been vetoed.

Three hundred and forty-four Senate bills have passed by the upper house; ninety-four of these have passed both houses. The Assembly has passed 40 of its own bills; of these 111 so far have met with the approval of the Senate who voted that way.

TAKES SLAP AT PARDEE.

Senate at the Same Time May Have Created Unpleasant International Complication.

[BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, March 2.—[Exclusive Dispatch.] In voting to disallow the claim of Frank Higgins, a Canadian lawyer, for services in connection with the extraction of George C. Collins, an alleged bigamist, the Senate, under Gov. G. F. Pardee, a political slap and through its action may involve the United States in an unpleasant international complication.

The Higgins claim, which now is for \$500, originally was \$1,500. The debt was contracted by the last State administration without the authorization of the State. The State Board of Examiners lopped off \$300 and the bill went to the Legislature. It was fought violently in the Assembly and finally got through. Now the Senate has turned around and voted to sustain the bill.

GOVERNOR WILL SIGN IT.

It is conceded that Gov. Gillett will sign the bill. He could not very well do otherwise. He is a one-term official, and in each house, he has no alternative whatever he may think of the project. He simply is asked to submit the matter to the people of the State. He cannot decline to do so, and has intimated that he will affix his signature.

HOW THEY VOTED.

The vote stood, ayes, Barry, Baxter, Behan, Beckett, Berry, Bishop, Buse, Campbell, Coghill, Cornish, Collister, Cullen, Cutten, Estudillo, Finney, Fisher, Forbes, Foster, Hamer, Johnson, Hodge, Higgins, Johnson of San Diego, Jury, Kelly, Kohlman, Leeds, Lemon, Lucas, Ludington, McMillian, McGuire, Root, Sackett, Smith, Snyder, Spain, Steiner, Struever, Tamm, Thompson of San Francisco, Toomey, Tranque, Vogel, Walsh, Weiske, Wesseling, Whitmore, Wilson, Wyatt, Mr. Speaker.

No, Biddle, Chandler, Clegg,

Costar, Davis, Drew, Hawitt,

Johnson of Sacramento, Lynch, Mc-

Connell, O'Brien, Percival, Pyle,

Smythe, Stanton, Thompson of Los

Angels.

Lame of Virginia then moved that

women friends of the movement may be able to rally the necessary twenty-one votes to secure reconsideration of the vote by which the amendment was rejected. The motion was carried, and seven Senators on their side in order to carry the measure. Eighteen voted for it yesterday, eleven against, and there were eleven absences.

COMMITTEE SATISFIED.

[SAN PEDRO BILL APPROVED. (BY DIRECT WIRE TO THE TIMES.)] SACRAMENTO, March 2.—[Exclusive Dispatch.] Senator Savage's bill, through which it is sought to have the State confirm San Pedro's lease of submerged lands to the Miner syndicate, was passed by the Senate this afternoon.

After the committee created by the bill last night through the objection of a San Pedro property owner that the bill aimed to give a water front monopoly to the Miner Syndicate, a special committee was appointed with Senator Bolles as chairman to inquire into the merits of the measure. This committee reported today and the bill passed, there being only two dissenting votes, those of Senators Bell and Cardinall.

BUTCHERS ANNOUNCE PLATFORM

[WILLING, March 2.—The German Butchers' Association has petitioned the Minister of the Interior concerning the proposed importation of American cattle by urging the slaughter of them at German ports. Then there was a stampede of the organization members to change their votes from "aye" to "no," thus defeating Bell and Cardinall.

ONE AT A TIME.

[BY DIRECT WIRE TO THE TIMES.] SACRAMENTO, March 2.—[Exclusive Dispatch.] Assemblyman Stanton, to whom the bill had voted in favor of the bill that the political phase of the situation appealed to the legislators. Then there was a stampede of the organization members to change their votes from "aye" to "no," thus defeating Bell and Cardinall.

Opposition Is Led by Disfavored Gulf States.

[BY DIRECT WIRE TO THE TIMES.] WASHINGTON, March 2.—[Exclusive Dispatch.] The Ship Subsidy Bill is as good as dead. This is the opinion of those best informed tonight regarding the probable action of the Senate in this regard. The Republican leaders, those who have favored the bill from the start, admit tonight that the hope is a forlorn one, but that they must keep fighting for appearances' sake. So horribly mangled was the measure as it passed the House yesterday that when it reached the Senate, not one was able to recognize it.

As soon as some of the Senators could come to terms with the bill numerous conferences among themselves with the result that everybody is predicting tonight that the bill will become the victim of a general filibuster in the upper branches against its passage.

The Democratic Senators especially are very bitter over the whole matter, and many of them have made up their minds to take the measure to the Senate.

The opposition, however, would acooed to the bill now, the object being that the next time out it will be sponsored by the Senate, and will hang in the balance until the King-Fresno county dispute shall be settled by voters.

ONE LAST CHANCE.

[FOR UNIVERSAL SUFFRAGE. (BY DIRECT WIRE TO THE TIMES.)]

SACRAMENTO, March 2.—Reconsideration of the suffrage bill, which was defeated in the Senate yesterday has been continued until Tuesday afternoon, when the upper house finally will put itself on record for or against the measure.

ARMY OFFICERS TO JAPAN.

[PARIS, March 2.—Minister of War, Picquart has decided to send French army officers to Japan to study the organization of the Japanese army. The others will make the summer free to veterans.

GAS WRECKS MINE.

[WILKES-BARRE, Pa., March 2.—Two men were killed and five injured when an explosion of gas in the Woodward mine of the Delaware, Lackawanna and Western, was set off, causing a partial collapse of the roof. The mine was closed for safety lamps.

ARMY OFFICERS TO JAPAN.

[PARIS, March 2.—Minister of War, Picquart has decided to send French army officers to Japan to study the organization of the Japanese army. The others will make the summer free to veterans.

FATIGUE.

[WASHINGTON, March 2.—Deficiency Bill is changed in upper house.

DEFICIENCY BILL IS CHANGED IN UPPER HOUSE.

[BY ASSOCIATED PRESS.] WASHINGTON, March 2.—[Exclusive Dispatch.] The Senate concurred in the Senate amendment, and on that Mann of Illinois demanded a roll call, "to put the States' rights fellows on record."

Lamb's motion was adopted, 136 to 118. The bill was again sent to conference, as was also the sundry Civil Appropriation measure.

The House reconvened at 8:30 o'clock this evening. The Pension Appropriation Bill was considered and the House refused to concur in the Senate amendment, ordering the bill sent to conference.

PRESIDENT SIGNS BILL.

UNSATISFIED, HOWEVER.

[BY THE ASSOCIATED PRESS.] WASHINGTON, March 2.—The President today approved the bill providing for certain error in certain instances in criminal cases.

"In accordance with the recommendation of the Attorney-General I approve this bill," said the President. "It is well done out, while the bill represents a decided improvement on the present law, it comes measure short of accomplishing what should be done."

"It will not prevent frequent failures of justice, particularly in the cases of serious crimes, but it does represent a certain advance, and in the hope that subsequent legislation will be introduced to meet the demands of even-handed justice in criminal cases."

CONSIDER ALDRICH BILL.

[DEMOCRATS FILIBUSTER.

[BY THE ASSOCIATED PRESS.] WASHINGTON, March 2.—By a vote of 175 to 100, the Aldrich Bill was taken up tonight in the Senate and the previous question ordered. The Democrats commenced a filibuster.

The Republicans who voted against the Aldrich Bill were Brumley, Cooper of Monroe, Dickey, Evans, Jones, Kline, McWayne, Miller, Padgett, Prather, Rorick, and Sullivan.

WASHINGTON BRIEFS.

[PRESIDENT NOMINATION.

[WASHINGTON, March 2.—The President today sent to the Senate the nomination of Alfred C. Markey, Thirtieth Infantry, and Edward P. Hall, Eighteenth Infantry, to be brigadier-generals.

Postmaster: California—Clyde G. Baldwin. Waiter: Oliver H. Duval. Clarence.

ASSISTANT TREASURER RESIGNS.

[WASHINGTON, March 2.—A. F. Stander, who recently was appointed Assistant Secretary of Treasury to succeed Charles E. Keay, has tendered his resignation to the President, and will leave the department with Secretary Shultz on March 4.

SIGN APPROPRIATION BILLS.

[WASHINGTON, March 2.—The President today signed the deficiency bill.

To reimburse Senator Reed Smooth for expenses incurred by him in defending his rights to his seat in the Senate.

The Senate concurred in the bill.

The position of the Democratic Senators especially are very bitter over the whole matter, and many of them have made up their minds to take the measure to the Senate.

The opposition, however, would acooed to the bill now, the object being that the next time out it will be sponsored by the Senate, and will hang in the balance until the King-Fresno county dispute shall be settled by voters.

FIFTY-NINTH CONGRESS.

CLOSING SESSION.

[BY THE ASSOCIATED PRESS.] WASHINGTON, March 2.—SENATE. Despite the ultimate defeat of the ship subsidy bill was the one measure toward harmony. Senator Galinger then suggested a further postponement until tomorrow at 11 o'clock. All agreed to this.

In the meantime there will be some effort to reach a common ground, but no one hopes for success.

The principal opposition today came from Democratic Senators who were interested in the committee on the Gulf of Mexico, and was perfectly understood that the determined opposition at so late an hour in the session meant the ultimate defeat of the bill.

After this episode, a cessation of hostilities until 5 o'clock was immediately apparent that no progress would be made toward harmony. Senator Galinger then suggested a further postponement until tomorrow at 11 o'clock.

The measure to come up Monday, but its friends concede that no action will result during the present Congress, which expires at noon Monday.

The general defense appropriation bill was passed, which provided an increase on the supply encumbers with the exception of conference reports.

The conferees report on the bill limiting the hours of service of railroads, and the bill was passed.

Senators, however, oppose the measure on other grounds, and if the Gulf of Mexico element should cause opposition it would be renewed by their colleagues.

Moreover, the House leaders believe that the Senate should receive an equal amount. When this was laid on the table they proposed that half the amount should go to the protestants.

The Senate concurred in the proposal.

It is believed that the Senate will accept the proposal.

The conferees report on the bill.

SETTLES RAILWAY BILL.

[BY THE ASSOCIATED PRESS.]

WASHINGTON, March 2.—The conference on the bill relating to the number of hours trainmen may be employed without having at least eight consecutive hours off duty, also provided for the extension of the working hours to 16 hours.

It is believed that the bill can have no show of passage with the rush of bills and conference reports that must be agreed to before the session concludes.

&lt;p

SUNDAY, MARCH 3, 1907.

**THWART PLOT  
OF YEGGMEN.****Rescue of Prisoner Planned  
by His Pals.****Expert Safe Blower Taken  
East Last Night.****Early Departure May Have  
Prevented Tragedy.**

Learning that a plot existed to free Tom Broderick, alias Kid Martin, alias Kid Mike, Sheriff Seaman and Detective Stephens of Elmira, N. Y., started for the East with the notorious safe blower last night about 2 o'clock. The plot was to hold up the train and rescue Broderick. By hastily changing their plans the eastern officers believed that they had foiled the scheme of the band of ten or a dozen "eggmen," of which Broderick was a member.

"When we arrived we learned that Broderick had been associated with about a dozen of the most desperate 'pete men' that this country holds," said one of the eastern officers just before leaving Los Angeles. "Knowing that they had recently been in Los Angeles and still might be in the vicinity, we kept watch for them. The local officers were told a few hours ago that Broderick would make an attempt to rescue him if we did not change our plans."

"Evidently the criminals had learned the first of next morning we did the day that we would. Our information is that the gang had chosen one of the mail carriers and experienced members to lead the other crew who were not so closely allied with the gang, in the rescue party. We have every reason to believe that they would have attempted a train hold-up here, trying to make the train to meet Broderick to his liberty."

The fact is that we are not so sure that the gang may not yet give up the plan. If they learn of our sudden departure they will have time to plan another, and in fact, he did not know it until he found himself at the railroad station where he broke down for a moment and almost sobbed.

No doubt Broderick clung to the hope that the police never have to answer for the safe blowing incident, N. Y., which is a suburb of Binghamton, and relied upon his pals to free him at any cost.

**THE KEY TO THE SECRET**

One Hundred Silver Dollars Here  
For Somebody. Maybe for You.

**HE PROMISES HELP  
TO FRUIT SHIPPERS.**

GOOD news to the orange shippers in Southern California has been brought by George B. Robbins, president of the Armour Car Line Company, who arrived in the city yesterday. He is a guest at the Alexander Hotel.

Robbins says he intends to confer with the citrus and vegetable associations and learn exactly what is necessary to move all citrus fruits or vegetables in the shortest possible time. He will be here all this week, and already plans have been made for conferences between representatives of the Southern Pacific, the Salt Lake, the various groups and himself. In

"The Armchair line has furnished almost double the number of cars that the Santa Fe has furnished," said Mr. Robbins. "It is the Santa Fe which has been furnishing refrigerator cars more promptly and to better advantage than has the Armchair line. This is the reason it has required three cars to do the work of two cars during last year. This has been brought about by a shortage in motive power and delay in traffic throughout the entire country. The Middle Western States have had a snowbound winter, and this has held up traffic. Then the business of the country has increased. These two things in conjunction with the shortage of motive power, have caused a shortage in cars throughout the country."

Charges That Transcontinental Railroads Are Working to Prevent Building of Great Panama Ditch.

Thinks President Is Doomed to Failure in Attempt to Finish Work.

BY THE ASSOCIATED PRESS-P.M.J.

AUGUSTA (Ga.) March 2.—"We are down again," said J. E. McDonald, president of the Panama Construction Company, in discussing the rejection of the bid of W. J. Oliver for the construction of the Panama Canal.

"They have taken the matter off our hands and it now rests with the President. The responsibility should be placed where it belongs."

"I cannot see why our bid should have been rejected, except that it is due to the

negligence of the government for the preliminary expenses of \$40,000 incurred in the preparation of the bid."

CHANGED MAIL ROUTE.

WELLAND (N. Z.) March 2.—Owing to irregularities in the service between San Francisco and New Zealand, the government has decided that no mails to and from Great Britain shall be conveyed by that route for the present. The Suez Canal route will be used instead.

Mr. McDonald does not believe that there is any real difficulty in the way.

"I am certainly not going to Washington to confer with him further in the matter. We will our company will be dissolved as rapidly as possible and then close the matter. I have not heard a word from Oliver since the rejection of the bid."

McDonald will enter suit against the government for the preliminary expenses of \$40,000 incurred in the preparation of the bid."

"I am certainly not going to Washington to confer with him further in the matter. We will our company will be dissolved as rapidly as possible and then close the matter. I have not heard a word from Oliver since the rejection of the bid."

## OHIO STEAMING FOR HAWAII.

Glad Company of Angelenos on Pleasure Bent.

Excursion Promises Benefit to City and State.

Boat Gaily Decorated With Many Flowers.

On the turning tide last night, at 9 o'clock, the steamship Ohio swung out from her dock at San Pedro and pointed her prow toward the harbor's mouth. She bears 250 tourists for the good sport, who thronged her decks, waving farewells toward the darkened docks and the twinkling lights of the harbor town. The feeling was strong that this was no ordinary excursion, and that this departure of tourists, whose homes are here, may mean more to Southern California than the welcome incoming of any equal number of tourists from afar.

When a telegram arrived from Senator Fred P. Flint, addressed to "Frank Wiggins" aboard the steamer ship, Ohio, San Pedro, an hour before the sailing, it found the "feeling" it expressed already there. The message from the Southern Pacific, which wished the departure of this a pleasure cruise, came, and expressed a belief that the excursion would result in great benefit to the city of Los Angeles and the State of California.

SIX CARS CARRY PARTY.

The journey began at 4 o'clock yesterday afternoon, at the Pacific Electric building, a train of six electric cars being sent out in two sections. The first section went to the opposite side of the Ohio's dock, several minutes before the second, for a separation of the coupling chains on the latter caused a brief delay. When the party had all embarked, the cars started again, waiting throng on the dock there were joyful meetings of acquaintances, cries of "Hello, there you are!" and other shouts of welcome. It seemed as though little time had passed since the last meeting after some long separation; yet many met from day to day, in their business affairs in the city. The conditions were changed, that was all.

On ships which for years have plied between Seattle and Nome, was not so clean and new in appearance as a good hotel. Three women, after seeing the "little, dark slate-roofed houses" to which the members of the company had assigned them, loudly declared that they "positively couldn't" But they did. A man on the hurricane deck voiced his grievances to Captain Fred Wiggins, and the captain, who was on the dock, replied that the concern could have his money but that he would not go. Even when he gave expression to his injured feelings, however, he watched his baggage come along, the porters not and did not forbid. He like the others will adapt himself to the environment in which he feels he has been given, slightly the worst of it, and he glad with the gladness strong.

### FOR EXPLOSION VICTIMS.

More Subscriptions Sent to Sufferers Through "The Times"—Other Donations Are Made.

Not cold are the hearts of those who sympathize with the men and women lying in the hospitals with crushed legs and arms, or none at all, victims of the explosion in the Rawson building on February 13, and yesterday there was sent through The Times for these sufferers to be distributed by the Expansion Relief Committee the sum of \$250.

The concert given at the Hotel Leighton Thursday evening for the relief of the sufferers netted the sum of \$30, and besides being a financial

## FOOD POISONS

50 Per cent. of All Diseases the Result of Undigested Putrefying Foods.

Men of affairs, women of society and children with active brains are too often sedentary in their habits, giving little time to exercise. To this evil is added that of high and irregular living—as a result, the stomach cannot stand the demands made upon it. The abuse and overtaxed stomach does not properly do the work of digestion, food taken in ferment and the acids ferment the whole system. The body loses in weight and becomes a prey for the attack of whatever disease it may encounter.

Did it ever occur to you how busy that stomach of yours is! It only holds three pints, but in one year you force it to take in 2400 pounds of material, digest it and prepare it for assimilation into the blood. No wonder it rebels when overworked. We crowd it with starch, fat, acidity, truffles, onions, with spices and acids, and expect the stomach to do its work. It can't do it. All over the inner layer of the stomach are glands which secrete the juices necessary to digestion. The entrance of food into the stomach is the signal for these glands to do their work. The more the food, and the more indigestible, the greater the demand upon them and upon the muscles of the wall adjoining.

Think of the tons of high-seasoned game, sweetsmeats and appetizers devoured into this little four-ounce mill, and then wonder, if you will, why you are dizzy or nauseated or constipated. Don't blame your stomach or curse your fate that you should be born so unfortunate. Blame yourself and apply the remedy.

First, get a small package of Stuart's Dyspepsia Tablets, taking one after each meal and at bed time. They are not a medicine, but a digestive. Your stomach is worn out and needs help, not medicine. Stuart's Dyspepsia Tablets fail to do the work that the stomach fails to do. There's enough power in one grain of Stuart's Dyspepsia Tablets to digest 3000 grains of ordinary food, so you needn't fear that anything you eat will remain in your stomach undigested.

Stuart's Dyspepsia Tablets will rout the poison because they remove the cause—food fermentation. They are the own cure for dyspepsia. The host of trouble dyspepsia sufferer of cannot be numbered, for a healthy stomach is the source of all health.

Sizes your opportunity before worse conditions confront you. Send today for a free trial package of Stuart's Dyspepsia Tablets. They will bring your stomach relief. F. A. Stuart Co., 83 Sturt Blvd., Marshall, Mich.

The 50-cent size for sale at your druggist's.

### STORED DYNAMITE EXPLODES.

Scars Are Injured and Many Windows Broken in Tremendous Crash.

(BY THE ASSOCIATED PRESS.—P.M.) NEW YORK, March 2.—A dynamite explosion occurred yesterday in the express works of the Pennsylvania R.R. North River tunnel at Homestead, N. J., was blown up shortly after midnight, injuring a score of employees and shaking buildings for miles around.

Twenty-four were sent from Union Hill and the injured were removed to hospitals. The shock of the explosion broke probably

the windows of the tunnel.

The shock of the explosion broke probably

the windows of the tunnel.

was torn apart and the earth violently shaken. The explosion threw the men to the ground rendering them unconscious, and were cut and bruised. As soon as ambulance men arrived the injured were hurried to hospitals.

No great monetary loss was caused.

### RUSSIANS KILL NOBLE.

REVAL (Russia). March 2.—Baron Budberg, former chief of the Ethnographic Society, and a member of the Council of the Russian nobility, was killed yesterday while driving near his country seat today. Of two servants accompanying the Baron, one was killed and one was injured. The pockets of the dead man was rifled by the assassins, who escaped.

BEKIN VAN AND STURGEON CO. moved to 140 South Broadway. Both phones 18.

# COME GOOD REASONS

## Why You Should Trade at the "SUN"

It is easy to find reasons WHY YOU SHOULD trade at the "SUN" Stores—the difficulty would be in finding some one reason WHY YOU SHOULDN'T—we believe a reason against your shopping here does not exist. The one big reason why you should trade here is that we do business on a broad-gauge plan. Our immense purchases of goods direct from manufacturers, at lower prices than most jobbers pay, enable "SUN" Stores to cut prices to a point where it is a matter of economy to trade here. And price is not the only consideration—quality we demand in everything. Our service, too, is another good reason. All in all, you will find the eight "SUN" Stores extremely satisfactory places to trade at.

### Feather Dusters

Big line just received. See display at our stores. Bric-a-brac feather duster 15c; 10-inch feather duster 25c; 12-inch 30c; 14-inch 35c; 50c. Other sizes up to 75c each.

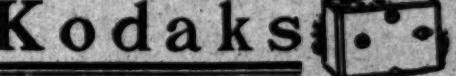

### Medicinal Liquors Specially Priced

Monogram Rye, qt. bottle 95c; California Grape Brandy, qt. bottle \$1.00; Holland Gin, qt. bottle .75c; Star Hennessy Brandy, qt. bottle .75c. (Liquors at "SUN" Stores Nos. 1, 2 and 4, only.)

Homeopathic Department

The latest Homeopathic Catalogue. Best where Chiropractic, Beurke & Runyon Co. Agency, "SUN" Stores No. 2, 229 South Broadway.

Kodaks

Kodak time is about here. Go into the field equipped right. Get a camera that will give the very best results. Get plates that are always reliable. Make photo making a pleasure by purchasing your supplies at "SUN" Store No. 2, 229 South Broadway.

## Yes, Sir!

On account of the great success of the picture sale at "SUN" Store No. 2, we are going to continue it another week. Remember—

## Three-Quarters of a Million Dollars Worth OF THE BEST MERCHANDISE

Everything in dry goods should be our slogan. Everything that is dependable. Everything that is new. Our buying organization has planned ahead for months, and in staples, even a year. Our buyers are in the markets now placing orders for spring of 1908. Our purchases made for this season have saved us tens of thousands of dollars—our manipulations before three successive advances in the price of cottons and silks will save the shrewd shoppers of this city from 10 to 30 cents on every dollar purchase of piece goods made in this store for months to come. Every floor and warehouse is bulging with stock.

Our First Great Spring Suit Sale  
Values from \$35 to \$60 on Sale Monday at \$25.00

## The Initial Sale

Last year we gave you some wonderful suit sales. The fame of Jacoby's suit sales during the spring of 1906 spread far and wide. We made thousands of new friends and customers by our extraordinary value giving. We'll make thousands more this season. First impressions are always the best and whether you want to buy or not, be on hand Monday to see these suits at \$25.00.

## Just 100 Suits

And nearly all single styles (one of a kind) but every new effect is here. Among the many beautiful new things are the cutaway coats, the ever popular Etons, the new strictly tailored suits and some fine 8-piece suspender and Eton styles. The materials in this lot comprise fine pin stripes, dainty checks, plaids and plain panamas; some choice new effects in taffeta silks are in the collection. The skirts are the new pleated or circular flare effects. The lowest price in the regular way would be \$85.00 and from that up to \$82.50. Choice Monday, \$25.00.

## Delightful Creations in New Tailored Gowns Shown First Time This Week

About 20 beautiful exclusive garments were delivered to us last week. They are placed on sale and for display the first time tomorrow. They comprise the charming French voiles in the pale shades. Some of the new linens and lace gowns that will find so much favor later are here. Priced \$65.00 and \$200.00.

Yesterday's Forecast and Report.

U. S. WEATHER BUREAU, Los Angeles, March 1.—Reported by A. E. Waller, Local Forecastman. At 8 o'clock this morning the temperature was 54°. The thermometer for the corresponding hours showed 51° deg., and 59° deg. Relative humidity, 5 a.m., 50 per cent; 8 a.m., 52 per cent; 1 p.m., 54 per cent; 4 p.m., 56 per cent; 7 p.m., 58 per cent; 10 p.m., 56 per cent. Velocity 5 miles; 5 p.m., West velocity 3 miles. Maximum temperature, 72 deg.; minimum, 47 deg. Barometric reduced to 29.92.

WEATHER CONDITIONS.—No rain has occurred at any station in California during the last twenty-four hours, although considerable cloudiness has been reported at San Francisco. Light precipitation is reported in Oregon, Washington, Idaho, and Montana, also at Colorado, Wyoming, Nebraska, Kansas, and Minnesota. The storm center in the Mississippi Valley yesterday moved rapidly eastward, and is now central in the valley of the Mississippi River. Rainy weather, however, rains are reported at all stations east of the Mississippi River. It is warmer this morning in the Middle Atlantic and the East, and the average temperatures prevail in the upper lake region, the Ohio and Tennessee valleys and along the Gulf coast.

WEATHER FORECAST.—A cold front is somewhat unsettled and threatening, and while no rain is indicated for Los Angeles and vicinity during tonight and today, more or less clouds will be expected.

FORECAST.—Local forecast for Los Angeles and vicinity: Partly cloudy tonight and Sunday, becoming cloudy Saturday. Light northeast winds, changing to southerly.

## THE CITY IN BRIEF

### BREVITIES.

Among the milliners of this city, there is one whose business is entirely different from others, and who, in fact, is the only one of its kind. This is Mrs. Krusman, 1095 Flower street, who has made a specialty of work which includes retrimming, and whose business is based on a thorough practical experience in tailoring and dressmaking, with a knowledge of the trade, well known in America that she takes full responsibility for perfect satisfaction. So that those ordering from her can rest assured that the fact surely shows that Mrs. Krusman knows her trade. Not only that perfect order work offers nothing but advantages, but charging extra to customers for quality materials used and work done, Mrs. Krusman is and can always be reasonable, as having to disburse a large amount of time and indirect heavy expenses to the benefit of her customers. All work is strictly first-class, contrivance is given every the same care, attention and skill, and the visiting regularly Paris, during the seasons, keep Mrs. Krusman exactly posted of all the latest fashions. She has a great number of prominent ladies, who, after having their first work done by Mrs. Krusman, have recommended her to their friends, sending her to their friends and bringing new customers.

Mrs. E. C. Collins, the Broadway milliner, has put the finishing touches to last sixty French models in extreme dress hats. These patterns are from Miss Collins's direct contact with the most renowned houses in Paris, and each one is a work of millinery art. Miss Collins is guaranteed by each designer that she owns the design exactly as it appears in Paris, and that it is not a copy of the same, either in Paris, or New York. The purchases of these hats are absolutely unique, and no hat of similar style can be produced, for in addition to the above guarantee, the novelties used in their construction are entirely original. The French designs are most procurable in America. These hats, with a large line of Fifth Avenue and Collins's hats, will be shown to your inspection.

The Ville de Paris announces their spring millinery opening tomorrow. Monday only, to add to the exposition of exclusive Paris patterns, and to show the latest and reproductions of the French ideas by the Ville's clever artists. It will be the handsomest millinery you have ever offered for your inspection. Miss E. Lucas, the buyer and manager of Ville millinery, has been round and about to call on customers, and will be happy to greet her many friends during this fashionable occasion.

City Steam Carpet Cleaning Works. Through clean carpets and rugs. Our service is the very best. We repair over all kinds of mattresses, and do high-grade upholding. son's removes superfluous hair by electric process at 107 S. Broadway, 212 S. Broadway. Mrs. D. Reed, tailor, 212 S. Broadway. Florham men's shoe, 211 S. Spring. Children's shoe store, 204 S. Broadway. Ladies' shoe shop, 402 S. Broadway. Horsey, piano tuner, Eaton's.

### CHANGE IN GROCERY FIRM.

The Stetson-Preston Company, wholesale grocers of this city, announces to the public that Alexander B. Barrett, formerly of the Johnston-Pratt Grocer Company, has purchased an interest in the first-mentioned company, thus coming back into the business that he followed for eighteen years. It is also announced that the firm will be known as the Stetson-Barrett Company, as soon as that can be legally accomplished under the laws of California.

## FOR SALE-HOUSES

FOR SALE-HOUSES  
FOR SALE-RARE BARGAINS  
FOR SALE-NOW

## SIX ROOM

Cottage, as fast lot on Main St.; just over the hill from Grand Avenue car line. This is a truly awful cheap home, about \$200 cash balance due now; great bargain, don't miss.

ALSO

New double apartment building, near Hillside and both two beds and back porch, on each side, making it about the size of two small houses in rear; rents for \$100 or \$120 each side; fine location, good for a small home for herself and a steady income of \$25 per month; May 1st ready to move in; this could not be built under \$1000; owner needs money to build it up.

ARTHUR G. NEWTON, 1200 Temple.

FOR SALE-THE HOUSE PEOPLE. WE CAN SHOW YOU A HOME IN ANY PART OF THE CITY AT ANY PRICE OR ON ANY TERMS. WE CAN SHOW YOU WHERE YOU CAN TAKE YOU TO THE BEAUTIFUL WESTLAKE DISTRICT, WILMINGTON, IN THE GREAT SOUTHWEST, OR ON FIGUEROA, OR SOUTH MISSION, OR ON MAIN, OR HIGHWAY, EAST LOS ANGELES, HIGHLAND PARK, OR SOUTH PASADENA. WE ARE THE HOUSE PEOPLE. LET US SHOW YOU WHERE YOU CAN BUY ICE TO SELL, OR BUILD YOU A HOME. OUR TEAM IS AT YOUR SERVICE. LOCATIONS AND PRICES COME IN AND WE WILL TELL YOU ABOUT IT. D. SPITFIRE INVESTMENT CO., 18 E. BROADWAY.

MEAT TRUST

KITES PRICES.

Three Rises Since the First  
of the Year.

Retail Butchers Threaten to  
Jump Up Cost.

Highest Wholesale Rate for  
Mutton Ever.

Never before has the wholesale price  
of mutton been so high in Los Angeles  
as at present; never before has  
the price of lamb been so high in Los Angeles  
as at present; not for three  
years has the price of beef been so  
high in Los Angeles as at present.

The wholesale prices are still going up.

Since the organization of what the  
retail butchers call the "meat trust"  
the prices wholesale of all meats have  
been advanced three times since the  
first of the year.

This is unusual in winter time, when  
meat prices are generally at their lowest.  
The retailers are "up." They say that heretofore they have not dared to  
advance their prices to customers in  
proportion to the added cost of meat  
and that their profits are consequently cut by the "trust," which  
is reaping the harvest.

"But if the trust advances the price  
again we will have to make an ad  
vance, too, for self-protection," said  
one of the big retailers in the down  
town district.

Mutton is now 11¢ cents a pound, where it was 9 cents the first of the  
year. Lamb is 15 cents a pound, or  
higher than ever in the local markets.  
Beef is fluctuating, but always up  
ward, from 10 to 12¢ cents a pound for  
round steak up. These are whole  
sales prices.

Between 200,000 and 300,000 pounds  
a day this makes a pretty profit for the  
"trust."

OLD UNDER NEW NAME.

The Southwestern Packing Company  
is an old company under a new name.  
It was formerly the Sennett Packing  
Company. It is spoken of as the  
"trust." "Billy" White, former Sheriff  
of Los Angeles county, is the super  
intendent.

Yet in spite of this it is claimed that  
the "trust" is paying such modest  
prices for beef and mutton on the hoof  
that an immense number of cattle have  
been sent North, where they can com  
mand better prices. Thousands of  
head of cattle have been sent North with  
in the past six months.

There has been no natural shortage  
in the Southwest of cattle. What is the  
reason for the three advances in  
the price? In answer to the people of  
Los Angeles: This is the question being  
asked these days by hundreds of  
housewives who do their own marketing.  
The butchers whisper "trust."

Another raise in wholesale prices is  
expected for soon, and if this is so, up  
will go the meat price in the future,  
and the retailer will make up for  
lost time and attempt to get back their  
lost profits. There will be no half way  
measure about the next raise.

There are five big meat packers in  
this city, and though it is absolutely  
desireable that the officers of the South  
western Packing Company or any  
other meat trust, or that the companies  
are cooperating to keep up prices, it  
is remarkable how unanimous they all  
are in advancing prices at the same  
time—three times since January 1.

The vegetarian restaurants are doing  
a rushing business with their meat  
substitutes.

The troubles of the retail butchers  
have been such over the unexpected  
rise in prices at various times by the  
trust recently that they are begin  
ning to wonder where they are at.  
There has been some talk among  
them of organizing in opposition to the  
"trust" for the purpose of establishing  
a slaughter-house where they can  
kill their own beef and mutton.

The municipal slaughter-houses which  
could be done under the supervision of  
proper meat inspectors. But the  
scheme fell through and now the  
retailers are absolutely at the mercy of  
the "trust" which apparently controls  
the situation.

In the meat butchers' kick they are  
hard to get meat. They lose custom  
ers. They find out that they have to  
be good.

It is asserted now that if meat is  
so phenomenally high in winter time,  
where ice hills are continually  
low and meat keeps better, what will  
it be in summer, during the hot weather?  
It is predicted that all records for  
meat prices outside of a famine dis  
trict will be broken.

CONFERENCE AT DOWNEY.

Methodist Episcopal Church, South,  
Will Hold Annual District Meet  
ing This Week.

The district conference of the Method  
ist Episcopal Church, South, will  
meet in Downey on Thursday of this  
week. Bishop James Atkins will preside  
at the conference, and he will be  
accompanied by three of the church  
secretaries from Nashville, Tenn.  
They are Rev. W. W. McMurray,  
church extension secretary; Rev. J.  
Hammond, educational secretary.

The denomination has not been mak  
ing great progress on the Pacific Coast,  
and it is supposed that the visit of the  
secretaries of the three great boards  
has been inspired by this fact.

There has been some talk of estab  
lishing a conference between Southern  
California, but Rev. E. P. Ryland said  
yesterday that it was in such an in  
definite shape that it was not likely  
anything beyond talking it over, would  
be done at this conference, though he  
says they feel the need and hope to  
see it accomplished in the near future.

SUNDAY OBSERVANCE MEETING.

The Sunday Observance Association  
will hold a mass meeting in the Naz  
arene Church, Sixth and Wall streets,  
on Sunday afternoon at 3 p.m. Among  
the speakers will be Col. John Sibley,  
Rev. A. B. Fritchard, Rev. C. La  
Fontaine, Rev. J. B. Holley and others.  
Miss Quincy will be the soloist, and  
the church choir will render selections.

ACADEMY OF SCIENCE.

The March meeting of the Southern  
California Academy of Sciences will  
be held at Symphony Hall, Hill street,  
Monday at 8 p.m. The subject will  
be "The Planet Jupiter," and will be  
presented by a director of the acad  
emy. Hollidaysburg, Pa., Collins, Ill. Dr.

## LOS ANGELES PAYS KING'S RANSOM IN TRIBUTE TO INSURANCE TRUST.

Fire Losses Only Fraction of Premiums Collected, and Profits  
Beat Notorious Lottery's.

Los Angeles pays yearly a king's ransom in tribute to the fire-insurance trust. We expend annually \$100,000 more for the maintenance of our fire department than do cities of three times our population in Great Britain. The big English companies at the head of the trust carry the heaviest lines of Southern California insurance.

The premium rate demanded by these companies here is twelve times as great as the rate for English cities, sixteen times as great as for German cities, and twenty-four times as great as those for the cities of Spain. And yet our rates continue increasing.

For the last ten years the per cent of profit of the insurance companies on Los Angeles business has been greater than that of the Louisiana lottery. And more profit is sought.

The gross profit of the English fire insurance companies operating in Los Angeles during the last twelve months is equal to the entire premium they receive in eight years for insuring property of equal value in Great Britain.

Los Angeles men of millions are organizing a mutual insurance company, independent of the trust, in order to avoid the payment of a king's ransom to secure fire protection.

"LET'S GIVE HIM ANOTHER SQUEEZE!"

they prefer to reap the profits in the same fields where they experienced their losses.

But the trust microbe is working. Men who have made a study of insurance and fire in Los Angeles only long to reap from the badge huge premiums and negligently adjustments is the organization of a strong local company; one prepared to branch out into other States.

The insurance magnate is an adept player on the imagination of the insured. Los Angeles has ample evidence that the trust will charge all that the traffic will bear.

CITY AT FAULT, TOO.

Lax building laws and gross neglect that amounts almost to criminal negligence in fire inspection have made the business district of Los Angeles an easy victim of the insurance trust.

While only one-third as great as the premiums paid, the annual fire loss of all California cities is heavy. The loss in Los Angeles last year was three times the premium charged for insurance property of a similar value in Great Britain. The indifference of the business interests of America to high premiums for insurance and to great fire losses is one of the never-ceasing surprises to the financiers of Europe.

The report of the San Francisco Chamber of Commerce on the great fire there contains this comment on building ordinances:

"It is to be feared that cheap construction is an excuse for increasing the premium rate in the business district as well as in the residential." There is one sure way of preventing, controlling and curing it is giving something to burn."

There have been times during the last ten years in Los Angeles when the building ordinance was more nearly adequate for an Indian village on the Arizona desert than for a growing city.

"Building ordinances have been the sport of successive Councils. Repeatedly commissions have prepared laws exacting enough to insure a better construction; these ordinances would remain in force until an investment or realty company desired to do some building; then the ordinance would be changed to suit the plans of the architect. One Council would do a record of twenty modifications of the building ordinance in twelve months."

The present City Council bids fair to equal in building ordinance modifications any of its predecessors. During the last two months there have been two cases of letting down the

## PIANO CRITERION

In passing judgment upon pianos, the Steinway serves as a criterion—representative of every point of piano perfection.

Point by point, the questioned instrument is compared—the tone with Steinway tone—the construction with Steinway construction—its standing among artists and musicians with the Steinway standing—its price, these points considered, with the Steinway price.

Thus, for over half a century, every new make of piano has been judged, with the result that the

## Steinway

has proven the best at all points. Whatever your Steinway, whether an expensive art work, a \$100.00 Miniature Grand, or a \$25. Vertegrand, you still have the pleasure of knowing that your piano is the criterion for all others.

## WE SELL STEINWAY PIANOS

We have in stock at all times, many styles of Steinway pianos, in a variety of woods and finishes. They range in price from \$25 to \$1,000—grande, miniature grands, uprights and vertegrands. Special cases made to order. Easy terms of payment when desired. Correspondence invited.

**CHILDREN ARE AVID READERS.***Little Ones Regular Public Library Patrons.**Know What They Want and Usually Get It.**Interesting Incidents of the Juvenile Department.*

BY HENRIETTA B. FREEMAN.

*"Please give me The Special Barker," chirped a child's voice in the Juvenile department of the Public Library.**Grown wise by long experience, the attendant handed out "The Leopard's Spots." The youngster accepted the book with an affirmative "Yes, that's the one," his card was duly stamped and he passed on.**You see, they have all sorts of ways of getting what they want.* "I am sure the attendant is right," said the girl, "but I have a habit of telling part of the story to us when they cannot think of the title of the book. One boy always asks for 'Stormy' when he wants Elsworth's 'Storm Mountain.'"

NOT AN EGOTIST.

*Two little girls came in the other day and wanted "Something nice." After several books had been offered them, one of the little maidens timidly ventured: "Please, ma'am, is it all I can have?"**For once, the attendant was at a loss to know what the child meant, but finally, after considerable questioning, she elicited this explanation:**"I mean where the girl talks about herself all the time - the time - that kind."*

POCKET EDITIONS.

*Down at the Central Avenue branch a little boy walked slowly through the library, critically examining the shelves, his hands in his pockets and whistling softly to himself. Finally, with a distinctly bored and slightly impatient air, he approached the attendant's desk and volunteered the following information:**"Guess I won't take a book today."**"Why not?" questioned the attendant.**"Can't find one that will fit in my pocket," he observed in a tone of finality.**A nice little girl with cropped hair and curly cockles had perched on her high, wavy chair in the corner of the room. Evidently it was her first visit to the library. The new child is easily detected by her shyness.**"Please, ma'am," she breathed, "have you got any books for little girls that went to parties dressed up in things?"**A copy of "Little German Cousins" made the independent society leader, and her brand new card was produced, with an air of shy pride to receive its first official stamp.**The children delighted to search through the catalogues and select their books. It is a joy to see the youngsters as they stand, pad and pencil in hand, and with a grown-up air of importance, write down the names of the books they want. A glance over the shoulders of a lad in corduroys revealed this list:**"From the Throat to the President's Chair," "Army Pictures," "A Tale of the Red Front," "Bull Run," "The Outcast Warrior," and "Uncovering a King."**One freckle-faced youngster appears at the door periodically - about every third day in the week - in company of automatically and alphabetically a string of authors something like this:**"Have You Dunn, Drysdale, Monroe, Stoddard, or Tomlinson?" These include a list of the most popular authors of the boys' stories and with striking regularity the answer is ever the same: "All out."*

MOST POPULAR BOOKS.

*The most popular books among the girls are the Louise M. Alcott series. There are two two-line copies each of "Little Women," "Good Men," and "Old-Fashioned Girls" on the shelves, and it is rare to find a single copy in view. The boys' favorites are stories of the Civil War, the Huntley books, Harcourt's athletic tales, "The Boy's Year" and Dunn's Young Kentuckian series of which there are dozen copies each in stock.**The busier hours in the Juvenile department are from 3 to 5 p.m. on school days, and all day long on Saturday, when an average of 300 children visit the room. At the table, here to gather over a Brownie book hunting out the policemen Brownies and indulging in peals of smothered laughter, there is a picture of pure enjoyment. "Follow me, like a squirrel at him, wench!" observed a Brownie pointing a grimy finger at a convulsively funny figure of a Brownie. "Ain't you a hoot, use me and then the whole squad bumped heads and wriggled in ecstasies of glee."*

AN INCIDENT EDISON.

*One of the constant patrons of the Juvenile department is a tall, pale-faced lad who walks on crutches. A cruel accident had injured him, but he has found an excellent substitute in his serious study of electricity at the library. He greedily devours everything he can lay his hands on about electricity. Day after day this delicate, thin youth pores over the books. He talks intelligently about induction coils, ohms, volts and motors. "I intend to be an electrical engineer when I grow up, and the limbs away on his crutches. And the limbs are that he will be.**Some mothers send for books by their sons, and daughters, and unless the title of the book is carefully written down, the effects are frequently disastrous to the peace of mind of the attendant.**"Mommie! The Waking of St. Helena," glibly spun off by a youth the other day. This was easy. It was as plain as a nose on a man's face that the special volume desired by that particular mother was "The Awakening of Helena Riche."**Another catch-puzzle for the attendant to unravel was this: "Please gimme 'The Hood That Was a Bloom'."**You say, "Why the child meant 'the Bloom' of course. No he didn't at all. When she handed him 'When Knighthood Was in Flower' he responded, half purred, ' Didn't know 'twas about a knight though.'*

THE DIGNITY OF DEBT.

*Every teacher of little children has witnessed their yearning for the distinction of washing the blackboard, or cleaning the erasers, or doing some kindred service. To be permitted to help "teacher" is the highest possible honor in the children's library; the distinction of paying the fine which is kept beyond the specified limit is the height of the ambition of little girls especially. Said one of the attendants: "It is hard to meet the look of pride and dignity with which they pay a fine."***Better Bargains at Barker's—Always!**

*I*t is and always has been our rule to give "Better Bargains at Barker's." Our notable success is the result. The matter of price receives careful consideration here. We always figure on lowest possible margin of profit. We believe in volume of business—quantity rather than too much quality.

*The news today is interesting. We call your especial attention to the two rocker bargains.*

**\$3.75 Rockers**  
**\$2.50**

We are slightly overstocked in this rocker and offer fifty of them at the above reduction. The wood is oak, the finish weathered, the seat cobbler style. The picture shows the design.

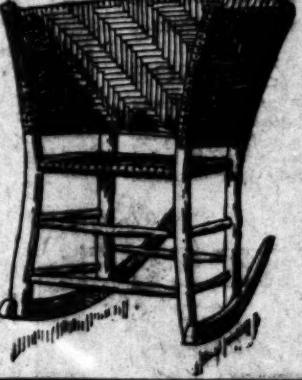

**\$5.50**  
**Reed Rocker**  
**\$3.75**

We are a good rocker. We are sure of that. It was "made in Los Angeles" according to our own specifications and practically under our supervision. We know that the frame is solid. We know that the reeds used are the best. We know that it is perfect from a standpoint of workmanship. We know it will please you.

**Old Hickory Is Here**

The advance guard of our spring and summer supply of "Old Hickory." It is unique furniture.

Nothing enters into its construction but hickory, the strongest of our native woods. The bottom and backs are plaited by hand, of the inner growth hickory bark, which can be stripped from the trees only at certain seasons of the year. "Old Hickory" is delightfully rustic in appearance. All frame work is made of young hickory saplings with the bark on. These are chemically treated so that all germ and insect life is destroyed.

**A HIGH GRADE INVESTMENT  
FOR THE  
PROGRESSIVE WIDE AWAKE MAN**

The Friday Gulch Gold Mining Company offers an investment of present merit and great future. They own a group of actual mines with ore enough in sight that would warrant placing the stock at double the price asked, but the immediate need of a mill and other improvements, such as machinery and supplies, forces the company to sell a certain number of shares, so as to raise sufficient ready money for these purposes. For a short time a number of shares, the par value of which is \$1.00, will be held at 10 cents per share. To get the stock at this figure it behoves you to apply for it at once. Fullest investigation as to property and the officers is invited.

**Friday Gulch Gold Mining Company**  
Capital Stock \$750,000  
750,000 Shares  
Par Value \$1.00

**Officers and Directors**

E. R. BRALEY, President. JAMES, Vice President.

E. P. HAIN, Secretary. H. J. MUNIZ, Treasurer.

JOHN HAYS, Superintendent.

The mines owned by the company are known as—The Friday Mine, 1500 feet; the Sherman mine, 1000 feet; the Osoyo mine, 1500 feet, and a mill site of 5 acres.

The Sherman mine, 1000 feet, is located on Sherman Hill, one mile west of Williams, Kern County, California.

There are also two smaller mines, the Sherman and Twenty-five miles from California, a station on the Southern Pacific Railroad.

**LEDGES** On the Friday and Sherman mines there are two parallel ledges.

The Friday and Sherman are running about 100 feet apart. The two ledges are 18 inches in height and width. The ore is principally free milling.

The Sherman ledge is open up to a depth of 120 feet, with drifts running in both directions.

The Sherman ledge is open up to a depth of 10 feet, and gives every indication of being a large producer—average

assay of 10 to 12 feet.

SUNDAY, MARCH 3, 1907.

## WOMEN'S CLUBS.

Musical Afternoon  
The musical section of the Wednesday evening club of Alhambra met at the home of Mr. and Mrs. Stifter, on Wednesday evening. The subject was "Some Dance Forms." Mrs. Stifter was ably presented in her discussion of the older movements, and pointed out their deep influence on later dance forms.

The musical programme illustrating the dance was as follows: "The Spanish Dance," "Spanish Dances," "Mazurka in 2 flats" (Chopin), "Tango," "Minuet" (Guly.) "Waltz," "Spanish Dance," "Spanish Dances," etc. Those who took part were Mrs. Noble, Mrs. Miller, Miss Lawson, Miss Brooks, Miss Jane DePuy Roche, and Mrs. Moore, Van Arnum, Northup, Routt, etc.

After the music there was a reading by Mrs. Vaughan, in costume. "When Grandmama Danced the Fife." The club will have an opportunity to hear Mr. McDaniel of Pasadena speak on "Domestic Science," with demonstration, at its meeting next Wednesday.

## Business Women's Meeting.

The California Business Women's Association will hold a meeting on Tuesday evening in the Collins Building, 212 West Third street. There will be a paper on "Advertising" by C. Weston Clark, secretary of the Los Angeles Business College.

The "Teas" Board of the society is now being prepared, and will include names and addresses of all who join before May 1.

Mrs. Kathryn Heaton Peck will continue her lectures in parliamentary law. Business women, both here and in India, who are in need of advice concerning business matters, are specially invited to be present.

## For Indian Women.

The annual meeting of the Indo-American Woman's Restoration League will be held on March 12 at 8:30 p.m., at the Hotel Roosevelt. An interesting programme will be given. Among the numbers will be an instructive talk by Mrs. Ada Lee, who has lived in India many years, and is fully conversant with the conditions of Indian women, who are interested in the cause of woman, both here and in foreign lands, are invited to be present.

## CASHING OF WARRANTS.

Law Office Method of Getting Money from County—Opinion by District Attorney.

In answer to inquiries from Supervisor C. D. Manning and County Treasurer John N. Hunt as to the alleged violation of law by road foremen in collecting pay for their labor upon county contractors, Dist. Atty. John D. Fredericks has submitted to each of these county officers a long and carefully compiled report, quoting the law at length and giving his opinion that without proof that the claims of the laborers have been "assigned" to the foremen, instead of being collected for them by their power of attorney, there has been violation of the law as it now stands.

In a condensed opinion covering both cases, Dist.-Atty. Fredericks rules as follows:

"It is lawful for a county officer to accept the assignment of another's claim against the county. The custom followed in this county in what has been termed 'assignment of claim' has been an infringement of a claim which is an infringement of the statute. The man has no right to use this blank: 'I hereby appoint \_\_\_\_\_ my attorney to receive from the County Treasurer money on the witness stand, and give the attorney no right to collect for his purposes. The money is not assigned to him; it is and remains the property of the original claimant. This attorney, however, may be retained in an engagement, which may be made by the attorney, specifying the amount due under claim and agreeing with him that the attorney, was to retain the same for his own use when he collects it."

This exception then is of fact as whether the claim was bought by someone to the one holding the power of attorney, or whether in presenting the claim and accepting the same from the county, the attorney was retained in an engagement, which may be made by the attorney, specifying the amount due under claim and agreeing with him that the attorney, was to retain the same for his own use when he collects it."

The results so far are that the company will either block or refuse to provide as much capital, and as soon as possible the stock market.

I therefore can possibly buy as much higher, before closing day, the company was always good to more expenses, and it is known that the company will commence to buy as soon as possible.

SUNDAY, MARCH 3, 1907.

## THE GALIC MOVEMENT.

Catholic and Protestants Are Alike Enthusiastic.

Language and Industries to Be Encouraged.

Wales Follows Same Course: Political Effects.

BY ARTHUR R. HINTON.

While the British Parliament is about to take up again the question of Irish home rule, a movement, many echoes of which from time to time reach this country, is being developed in Ireland, the final result of which it is difficult to foretell. I refer to the Galic League, whose president, Dr. Douglas Hyde, visited Los Angeles while in America to arouse the interest of the Irish-Americans in the effort to revive the ancient language and literature of Erin.

This movement is one of the most extraordinary, in some respects, that has been seen in any land. It is not often supposed, confined to Ireland, but, on the contrary, the same thing is seen with as much enthusiasm, in Wales, and to some extent, in Scotland.

### PURPOSES.

In Ireland the objects of the Galic League, as stated by its founders, are: First, the revival of the ancient Galic tongue; and, second, the encouragement of Irish literature. That the former is a natural development in the same period that has ever traveled in Ireland for an instant doubt, whatever difference of opinion there may be as to the method of encouragement.

It would be an indecent to find a small country that needs industrial encouragement and fostered by every man in the power of the people or government more than wretched, poverty-stricken Ireland. And here, the movement appears to have had its origin in the way the Galic language was used over the country by the union with Great Britain, whose free trade laws favor any new industry established in Ireland in competition with not only the native industries of Ireland, and Scotland, but of all the world. Until the beginning of the nineteenth century Great Britain was a protective tariff country, and her colonies were built up to a high standard. They are now rising with great success in competition with us, but there are signs of dissatisfaction even there, while in Ireland the condition is almost hopeless. Let me American, by his political theories and may, consider what would become of the Galic movement if he had the power of an American industrialist and they should come from the far east, when first opened and had no rival, to compete with the old established manufacturers of Europe.

As to the attempts to revive the language, we think there should be room for differences between us and it is especially. It has scarcely any practical value. In the districts around Dublin and much of the east coast, it has been dead for a century, if not more, to the majority of the citizens. Even in the west districts in the south, Galway and Clare on the west and on the northern coast of Donegal in the little spoken, though very old, generally to or among their children, who have learned it in schools within the last few years. The Galic movement started. It is spoken by persons between the ages of 20 and 70 years. Even in counties like Cork, Ireland, where the language does not appear to be in general usage in most districts, small, indeed, and remote from railroad must be the place where it is not spoken at least almost entirely. In Western Galway, throughout, in the north part of Ireland, called to find a person who did not speak English, about as well as the emigrant on landing at England. In the towns everywhere it is still predominates.

### LEADERS' ENTHUSIASM.

The leaders of the Galic revival defend their cause by asserting that they have never been strong and popular without a national language, and that they take a pride and delight in it. Again and again an Irishman, who frequently speaks no word of English but English himself, will say, "I ask him for his name, and he is able to speak his native language.

True enough, literally, but to us it would seem that one's language is whatever language his mother's knee, and we never make a mistake in it, and cannot be our native language, no matter whether it is, or ever the language of our ancestors. The Galic movement, however, has taken up with the utmost enthusiasm all over Ireland, and is strongly centered around Belfast. It is non-sectarian and non-political. Its advocates are naturally for our Nationalists and Roman Catholics, but many of the most eminent are Protestants. Dr. Hyde, founder and founder, is the son of a Protestant minister, a man of Trinity College and a protestant of the religion of his father. A number of Protestant ministers have actively joined hands with the clerical leaders of the movement. The Orange lodges are not friendly, but it must not be supposed that Orangemen and Protestants are synonymous. They are more true than it is to suppose that they are unanimous for home rule, that is far, indeed, from the case.

Irish is taught in nearly all the schools and paid for out of public funds. Children are allowed to speak it among themselves at home, if their parents permit. Street signs are being both in English and Irish. On the roads, on the mountains and southern coasting guideposts are the two languages. In Connemara the language is carried to extremes, and, generally, the only one who uses the guidepost, finds it impossible to be one of the outsiders who read Irish.

THE CHURCH'S AMEN. Catholic bishops have endorsed the movement in strong terms, and the corporation of the church is required a knowledge of Irish among its employees. When this was at Cork an opposition member demanded that it should apply to all men, and the Lord Mayor, said if it did, all the incumbents would be likely to lose their

that no one should be eligible to a place as bank teller or cashier who was ignorant of Irish, a requirement which, the president of the bank pointed out, at the stockholders' annual meeting, would not only work the greatest injustice to old employees, but would almost paralyze business.

The movement for the encouragement of Irish industries is meeting with considerable success but so much remains to be done that progress is hardly noticeable. In lieu of protective tariffs patriotism is being appealed to and the injury done the country by sending so much money abroad is being widely printed in papers, magazines, from the stump and on posters and circulars. In August I attended an industrial and agricultural fair at Limerick and saw many examples of new Irish industries. Among the manufactured goods, canned meats, ham and bacon, bicycles, flour, linen, whisky, beer and stout, Guinness's brewery at Dublin is the largest and best paying in the United Kingdom, being run by itself in the manner of a great and profit. It employs several thousand men. Perseus and Jameson's distilleries are famed for their whisky. At Limerick the meat packing business is the chief industry and the city is to be called the Chicago of Ireland in the future. There are three houses, and their hams and bacon are famous throughout the United Kingdom. Some of their output is even sent to foreign countries. The fame of Irish tweeds and tweeds alone is world-wide. The raising of cattle is an important industry. In County Meath experiments are being made in the cultivation of tobacco, which are said have been very successful. Smoking and chewing tobacco, cigar, cigarette and cigarettes made from the native produce are sometimes found in shops and stores.

At a factory at Limerick.

In Wales the movement for the revival of the language is also making much headway. The example of Ireland is having its effect here. David Lloyd-George, our present president of the Board of Trade, a cabinet position, is a prominent leader in the Welsh national movement, which comprises besides the revival of the language, the dis-establishment of the Anglican church and a form of administrative reform. Municipal bodies, especially of educational and similar matters. As in Ireland, municipal bodies are making a knowledge of Welsh essential for public employment, although it has ceased to be spoken in the country districts and even there English is almost always spoken. In a word the movement may be summed up as "Welsh" as for the Irish.

Wales is "Welsh" for the Irish. Bitterly on the London papers minds the Welsh that they have given equal opportunities in every part of the British Empire and that they should not seek to bar others at home.

The Galic League members say nothing or religion can be mentioned in anything that can be said in their good faith. But, at the same time, blind indeed must be he who does not see in this revival a reopening and intensifying of the old racial and national feeling that keeps us in Ireland and England at sword points.

Carried out successfully, it means the establishment of a nation within the United Kingdom but alien in sympathy, as it always has been and will be, more with a language of its own as a distinguishing mark. This comes at the very moment when home rule appears nearer than ever for Ireland.

This means that just when the talk of consolidating the interests of the colonies with the Mother Country is being called to the largest and most intense interest and national feeling coming into existence in the colonies, the force of racial and national antagonism are making the most progress right at home.

Padre, after six centuries, hurling

Incarnation of Birds.  
A remarkable mode of incarnation is practised by the birds, which with immense bills and horrid crests, which inhabit Southern Asia, the Malayan Islands and Central and Southern Africa. In most, if not all, species of the brooding female is walled up in a nest tree, a fact by no means. She remains confined in her nest until the eggs are hatched, and in some species until the young birds are able to fly. Meanwhile, the mother has become temporarily incapable of flight and is alighted on a branch, or, at all her wing feathers during her captivity. But the male is indefatigable in providing for his family, and is said to work so hard that he is reduced almost to a skeleton at the end of the brooding season.

## "Philadelphia" LAWN MOWERS

The Philadelphia Lawn Mower runs easier, lasts longer and is more efficient than any other. We have just received a full car-load. They range in price from \$3.25 to \$18.00.

## "Alaska" Refrigerators

That there will be a great demand for refrigerators this year is demonstrated by the number of calls we are getting for them. If you intend to buy a refrigerator, why not get the best—the "Alaska." We are now showing many styles of these famous refrigerators. To be sure of getting exactly the one you want, come and see us early. Price \$8.00 to \$125.00.

## PUBLIC SERVICE.

### SUMMARY OF THE DAY.

The Council's Finance Committee yesterday met with the City Attorney and the City Council over the withdrawal of funds by twelve commissioners, and it is probable there will be an increase in liquor licensees, the sale of property held for delinquent taxes, and a cigar stand license, in order to meet the possible deficit.

Citizens of the northwestern part of Los Angeles yesterday visited the City Hall to urge immediate action toward ridding that district of all derelicts.

An appraisers' commission has fixed upon \$400 as the sum the School Board shall pay Mrs. Katherine Kuhnen for her strip of land adjoining the Thirteenth Street School. The board had offered her \$300 for the property, and the commission is \$100 less than the original offer of the Board of Education.

Right of Way Man.

The Finance Committee will recommend to the City Council tomorrow the appointment of a right-of-way ordinance man for the City Attorney's office. The position is to carry a salary of \$200 per month. The work which has been done for some time past by Dr. J. H. Martin.

**Diamond Oil Derrick.**

A delegation of property owners from the northwestern hillside, headed by Thomas T. Knobell, City Attorney Hewitt and various Councilmen at the City Hall yesterday, to urge some immediate action toward ridging their section of the city of the dirtiest, most lawless, dangerous place especially desire the clearing up of the territory bounded by Boyleton and Temple, Douglas and Colton streets.

**AT THE COURTHOUSE.**

### FORGER FAILS TO GET MERCY.

#### RECEIVES FIVE-YEAR SENTENCE TO STATE PRISON.

### AT THE CITY HALL. HEAVY TAX ON "COFFIN NAILS."

#### METHOD MAY BE USED TO PROVIDE MORE CITY MONEY.

Finance Committee Discusses Serious Situation of Finances, as Twelve Department Funds Are Now Overdrawn—Lands Held for Delinquent Taxes to Be Sold at Once.

"Coffin nails" are about to get their. The proposition is before the Finance Committee of the city to tax cigarettes to the very limit of endurance. It was discussed at some length at yesterday's session of the committee, and will be taken up again at tomorrow morning's session.

The Finance Committee is stirred up over the condition of the city finances. Notwithstanding the fact that months ago each city official was notified in writing that they would be expected to keep rigidly within their appropriations, and not make an expenditure for any one month of more than one-twelfth of their entire annual appropriation, the City Auditor, yesterday, told the Finance Committee that many of the city departments had largely overdrawn their appropriations, so that a bill must be called for that will be a serious deficit at the end of the fiscal year.

The City Council's expense fund is overdrawn more than \$100; the City Attorney's is \$100; the City Clerk's, the election expense fund is \$20,000 overdrawn. Other overdrawals are the accounts of the City Clerk, the Civil Service Commission fund, the fire department, Public Library, police department, City Treasurer, City Hall custodian, City Engineer and engineer.

The Finance Committee considered several methods of raising money to meet the certain deficit unless there can be a steep reduction of city expenses. The greatest prospective source is fund from fines in the police courts and from license fees.

The proposition to increase the license fee for salaried drivers, 100 percent, and it is probable a stiff increase in license fees will be recommended. The ordinance providing for the taxing of drivers will be ready for presentation on Monday to the City Council.

The one providing for the taxing of cigar stands will soon be formulated, and it is anticipated that this one will bring in a fund of \$100 per month.

In connection with this proposition came up the discussion as to what the City Councilman Wallace is in favor of placing a heavy tax on the right to sell cigarettes, and as Councilman Blanchard is known as the father of anti-cigarette legislation, it is anticipated that he will support Wallace's proposition.

Another source—from which it is expected a considerable revenue for the city—is the sale of lands held by the city for several years past through sales for delinquent taxes. City Attorney Hewitt was instructed to proceed to bring about the sale of such land at once.

#### OPINION RENDERED.

#### BOARD TO HANDLE MONEY.

City Auditor Musket, who will have the checking up on the disbursements for the Owens River project, which will run into the millions of dollars, wants to have a hearing with any possible legal complications.

He has asked of City Attorney Hewitt a definite ruling as to whether the Owens River enterprise is a municipal affair, and an explicit statement as to whether the money voted or to be voted for this enterprise—whether it is the City Council, the Board of Public Works or the Board of Water Commissioners.

The City Attorney refused to go into these questions, owing to the material in detail, to the extent of eight typewritten pages. His opinion is that the Owens River project is a municipal affair, and the money voted or to be voted for this enterprise—whether it is the City Council, the Board of Public Works or the Board of Water Commissioners.

When the City Attorney refused to go into these questions, he went into the matter in detail, to the extent of eight typewritten pages. His opinion is that the Owens River project is a municipal affair, and the money voted or to be voted for this enterprise—whether it is the City Council, the Board of Public Works or the Board of Water Commissioners.

City Attorney Hewitt says in this communication to the City Auditor:

"When the Owens River enterprise is completed it will require a large amount of capital, and the water supply thereto obtained will be turned over to the Board of Water Commissioners, and they will manage and control it."

#### Mounted Guard for Park.

The Council's Finance Committee yesterday decided to recommend the appointment of a mounted guard for Griffith Park. This officer is to be paid out of the Park Department funds.

#### Playground for Pupils.

Mrs. Katherine Kuhnen must accept \$200 for her strip of land 8x88 feet at the corner of Thirteenth and Hollister streets, instead of the \$300 in the suit dismissed by Judge Hunt.

### FORGER FAILS TO GET MERCY.

#### RECEIVES FIVE-YEAR SENTENCE TO STATE PRISON.

**CUTTS URGES THAT CRIME RESULTS FROM DRUG HAUL COURT TELLS HIM IT WILL BE SWAILED OUT OF HIM BY HARD LABOR—MOTION FOR NEW TRIAL DENIED.**

Walter L. Cutts, a convicted forger, stood before Judge Smith in the Superior Court yesterday morning and asked for leniency on the ground that the effect of the drug which he had been taking impelled him to commit the crime.

"Then I will put you where that habet will be thoroughly swailed out of you," said the judge, and sentenced the culprit to serve a term of five years at San Quentin.

Attorney Taylor, who defended young Cutts, moved for a new trial on the ground that the judge's charge to the jury had been improper. He held that a man who has been declared insane by a competent tribunal must be shown to be sane by a preponderance of evidence before he can be convicted of a crime, and that in such a case Judge Smith's statement that the law holds all men sane until the contrary is proven, but no proper burden of proof was laid upon the defense.

After the trial, Cutts was remanded to the State Prison.

**WISH TO ANNOUNCE** the arrival of their selections of Men's Clothing for Spring 1907. Suits are of the exclusive "Chesterfield" make, the finest ready-to-wear clothing for men produced. Fabrics are carefully chosen, patterns most tasteful—in fact these garments convey that character and dignity which the well dressed man desires in his clothes.

Your inspection is invited.

Company had been appointed receiver and had collected \$300 for Mrs. Craney, who had been swailed out of her property by her son, Edward C. Cutts, who had never been discharged from the asylum at Patton, in which he had been confined during three months in 1906, but had escaped, and therefore was supposed to be at large.

The motion to dismiss this property suit was based primarily upon the fact that the property in question was the property of Mrs. Craney, but it is claimed by opposing counsel that he did not do this and demanded the return of the plaintiff's money.

The attorney for the plaintiff may appeal to the Supreme Court from the order dismissing the suit.

**THE INFERIOR COURTS.**

**LOSES CASE BY HIS ADMISSIONS.**

**YOUNG GIBSON ACKNOWLEDGES IMPROPER CONDUCT.**

**PRINCIPAL BAILEY AND CAPT. LOCKWOOD OF LOS ANGELES MILITARY ACADEMY DISCHARGED FROM POLICE COURT.** Accusation of Brutal Whipping Not Sustained—Neighbors Row.

**VAGRANT SURPRISED.**

Before Attorney Earl Rogers could begin his argument for the defense of Capt. George O. Lockwood and Prof. Walter J. Bailey of the Los Angeles Military Academy, who were charged with brutally whipping Leon K. Gibson, the young pupil, Justice Chambers found the particular form of amusement seems to have appealed strongly to the court. He admitted that he had found it diverting to see a variety of snoezles he has been able to produce. He could not get the right brand of snuff Friday night and so brought pepper.

Admitted with enough to stampede a regiment of soldiers, Willis and his friend went to the Burbank. Willis waited until the last act of "A Temperance Town," and then scattered the property of the audience. Out by one and in went and threw the audience across and over, "kerchingoo" as they walked out. The arrest of the two men followed.

Willis is in Los Angeles representing the Local Bell Manufacturing Company of Minneapolis, Minn. He holds a responsible position, it is said. Monk is a land owner whose home is in Colorado.

**Principal Bailey and Capt. Lockwood of Los Angeles Military Academy Discharged from Police Court.** Accusation of Brutal Whipping Not Sustained—Neighbors Row.

**GOING ON.**

**BOISE GETS TWO YEARS.**

People were held in dense water-day in the Superior Court in the case of Edward Boile, who was permitted to plead guilty to assault with a deadly weapon after being arraigned for assault with intent to commit a felony.

He was sentenced to two years at San Quentin.

A number of witnesses were called in support of Boile's plea for parole, among them Commer L. Lander, manager of the firm to which Boile had been assigned to work.

Capt. Lockwood said that Gibson had called for his clothes after the whipping, and had "stalked" into the dressing-room during the luncheon hour.

The Captain declared that Gibson had damaged his things in an insolent manner.

Photographer Haessler was placed again on the stand and the testimony of the witness was read to him after he had twice contradicted himself.

Witnesses said that he was convicted of perjury, the court interrupting with a severe reprimand because of his admission that the photographs, showing the many dark wells on the body of Gibson, had been "doctorated."

**INSULTS WOMEN.**

L. J. Powell, who lives on Boyle Heights, was compelled to face a crowd of angry Boyle Heights residents yesterday morning in Justice Ross's courtroom.

Powell was charged with disturbing the peace.

Joe Marzoli, the complaining witness,

more than a score of the friends of Marzoli appeared for the prosecution but not all were obliged to testify.

Threatening words and an ugly hullabaloo revolved in the neighborhood law office when the court had insulted several women who reside in the vicinity of No. 414 Fulton street.

They were in court yesterday and glared at Powell, who sought to defend himself from the charge.

He was found guilty and will appear tomorrow morning for sentence.

**PEPPER THROWER FINED.**

The throwing of pepper into the eyes of a woman who was in the courtroom was a serious offense was established yesterday morning in Justice Ross's court.

C. S. Willis, who admitted having thrown the pepper, was fined \$100 with the alternative of spending the day in jail.

In the suit dismissed by Judge Hunt,

Mr. Clegg was himself found guilty.

Both principals ask for a new trial.

Children's stockings in best materials; finished stockings, sizes 5 to 14; double sole, toe and heel; a good wearing grade; regular 12 1-2c value, Monday at 12 1-2c.

## BRAZIL BIGGEST RUBBER COUNTRY

FURNISHES HALF OF YEARLY WORLD'S SUPPLY.

The production for 1906 is estimated at 70,000 tons, and of this 50,000 comes from Brazil—Demand is increasing faster than present production.

The rubber production of the world was summarized recently at the meeting of the Brazilian rubber trust. The chairman stated:

The world's rubber production for 1906 is estimated to amount to 70,000 tons, of which 50,000 are 50 per cent, or 45,000 tons, is the anticipated output of South America. Of these 45,000 tons, Brazil will provide 25,000 tons or more, or 50 per cent, of the whole world's production, the value of Brazilian output being, roughly \$15,000,000 (\$32,750,000). Nearly the whole of the 45,000 tons from South America is natural grown rubber, and nearly the whole of the 25,000 tons is the product of the Amazon and its tributaries. This production is absolutely essential to the manufacturing industry, for notwithstanding occasional demand for synthetic rubber there is no question that the demand is increasing at a ratio in excess of that of the supply. All the plantation rubber will be required, and more than can be supplied. At present the output of plantation rubber is about 100 tons per annum, or about 1/4 per cent. of the whole, while Brazil provides 50 per cent. of the whole. The two products are not in competition, as man who, and if in the course of time the production of cultivated rubber reaches 50,000 tons, it is improbable that the price will be affected in any way by appreciated natural rubber.

The price of natural rubber is leveling down to that of fine Para, the relative prices being about \$1.25 for Brazilian, fine Para, \$1.25 or \$1.40 for good grade plantation Para, and so on. There is a difference of from 10 to 25 cents. More manufacturers seem to be preferring plantation rubber in block form rather than in biscuit or sheet form, as there is less risk of deterioration.

EXTENT OF PLANTING.

A London firm's review of the India rubber market in 1906 states that the rapid increase of supply has been beyond expectation, amounting probably to 160 tons Ceylon and 350 tons Malaya, against 100 tons, seventy tons Ceylon and twenty-five tons Malaya. The circular reads:

The world's supply of rubber in 1906 is estimated at nearly 55,000 tons, and consumption is also estimated at 55,000 tons. Planting has greatly increased, and will produce much more in the near future. Planted and planting (but some mixed with tea and coco and coffee), is scattered at Ceylon, Malaya, Malacca, Sumatra, Siam, etc., 20,000 acres; Burma, 12,000 acres; Java, 20,000 acres. Mexico has some large plantations, also Nicaragua and Honduras, and some in Colombia, Ecuador, and Peru. India has begun, say, 10,000 to 20,000 acres planting: Burma and Malaya, beginning; the Philippines, Samoa, Hawaii and other Pacific islands, and Seychelles and Mauritius, have recently entered the supply, also the West Indies. In the Congo and German West Africa plantations are in progress. The supply from the Americas (Brazil) shows no signs of diminution: Brazil produced 55,000 tons. Stimulus is given to the production of other rubbers in Brazil, such as Manicoba, etc., by various companies working with big capital, and supplies have been considerably increased. Large quantities of Guayule from Mexico have been disposed of in America and Europe. English manufacturers have as yet scarcely used it, but are now turning to it, but are making further experiments.

The high motives governing those who formulated the regulations under which the club is operative, are stated as follows:

With the idea of broadening its influence, and of making it more popular, it may be said, the doors of the club have been opened to men outside of Christ Church.

"For you to become a member of this club," says the announcement, "is only necessary that he shall be a gentleman in the full meaning of that term, as member of our club, and that the personal character of the applicant, and his wife, has been plainly set forth in our Regulations governing this fraternal organization, and that he shall be a member of a church or denomination.

The high motives governing those who formulated the regulations under which the club is operative, are stated as follows:

"The purposes and objects of this organization are a fuller knowledge and control of self; a better and more complete knowledge of the world around us; a clearer and closer connection with our social and civic life, and a higher and purer conception of our duty to others. We believe that the necessity for a broader knowledge and acquaintance with others, in order that we may live a higher and nobler life, which tends toward the highest perfection of human life."

## DEAFNESS BOOKFREE

### How to Regain Hearing

The best book on Deafness and how to cure it ever given away, is being distributed absolutely free of charge by its author, Deafness Specialist Sprout, the famous authority on Deafness and all diseases of the ear.

The book contains information that will be of wonderful value to all deaf people. It was written to tell the world of the author from Deafness, and it tells all about the cause, dangers and cure of deafness and all diseases of the ear.

It shows how the author got all his hearing back again.

It gives up, causing the loss of hearing, and explains how to prevent it.

It shows how to stop them. Fine drawings by the best artists illustrate its pages.

If you want to get rid of Deafness,

send for this book and find out what to do.

Deafness can be cured.

It's in great demand.

so ask for it today.

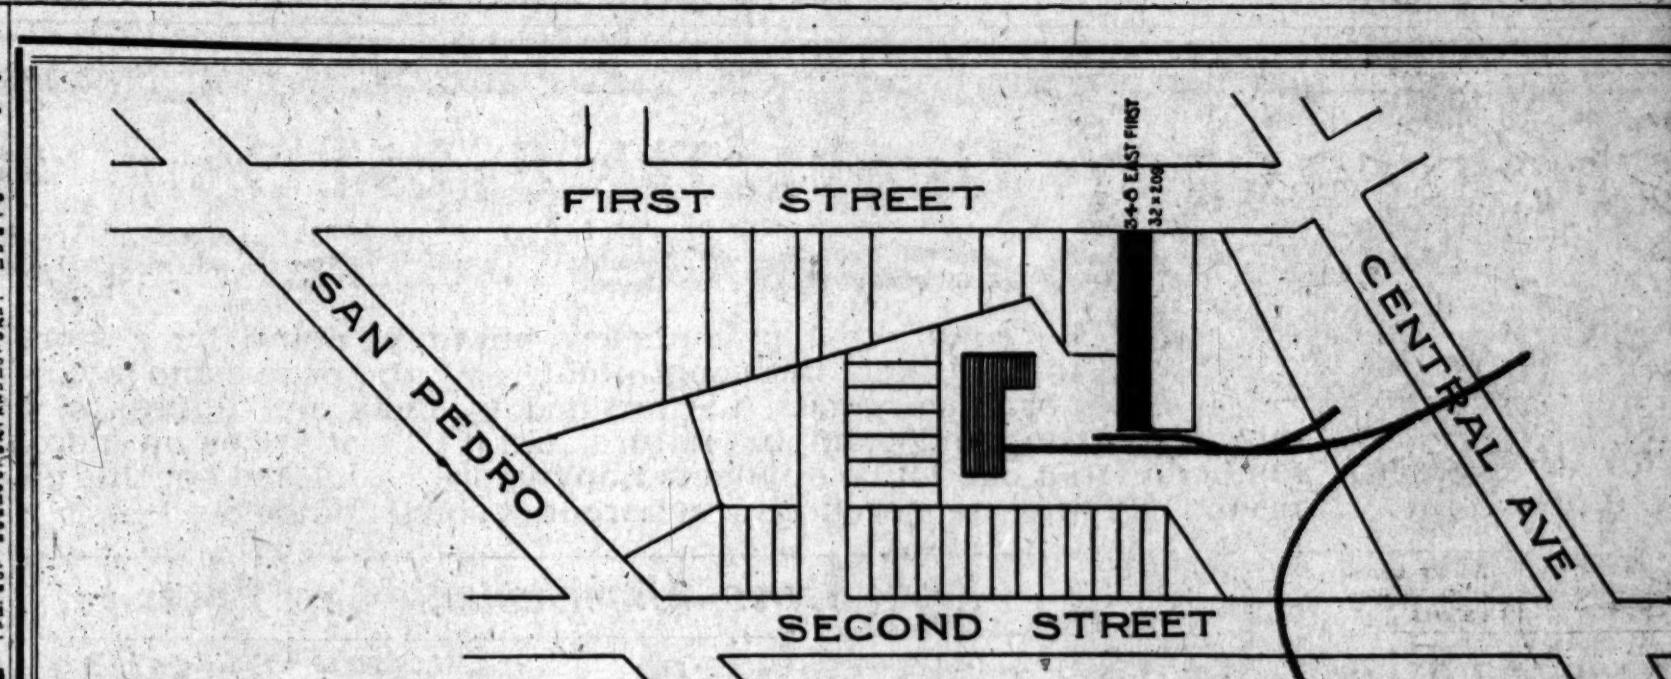

Write your name and address on the coupon and mail it to DEAFNESS SPECIALIST SPROUT, 84 Trade Bldg., Boston.

Adjoining the Huntington Building

### AN UNAVAILABLE SOUVENIR.

Postmaster Flint has issued a notice to the public calling attention to the fact that the small boxes containing twirled cotton, which were sold in large numbers as California souvenirs are not available. Under the postal laws packages containing such articles as fresh fruit cannot be sent through the mails, and the breaking of such packages would cause damage to other mail matter. The boxes are being purchased by the hundreds by visitors from the East, who try to conceal them in order that we may not notice and interfere with their exportation.

"We want it now," objected the newspaper man. "We want to print it in our paper tomorrow morning." "But you surely don't expect me to quote you dates and facts out of my mind on the spur of the moment, do you?" asked Mr. Zangwill, in astonishment. "Such a thing is out of reason."

"I'm sorry, but it's the only way we or 25.61 per cent."

## Coeur d'Alene Mining and Development Co.

A. J. RICHARDSON, 619-611-612  
Chamber or Commerce Building

### MINING STOCKS

We want you to know something of a new Copper District that is now being opened up, which is very near home, which can be personally visited at any time, and which at the same time would cover the trip to and from the property. The district is known as

### "THE COPPERFIELDS"

In San Bernardino County, Cal.

Heretofore we have confined our interests to the great mines in the County of Alameda, but in the last few months we have turned our attention to a new and very promising field. Last week a party of six experienced mining men of the Coeur d'Alene district, were on the new opened district above referred to. We went particularly to inspect the property of

### Whipple Mountain Gold and Copper Co.

After a thorough investigation these thoroughly practical experienced miners have purchased substantial blocks of the stock of the "Whipple Mountain Gold and Copper Co." of the State of Colorado, and brought back with us a number of specimens of the ore which we brought back with us from the Coeur d'Alene.

The specimens are of young and very fine copper, and we are giving an opportunity to young men to give us an opportunity to buy shares in this company.

We are offering at 1/8 a share. Work is to be commenced at once on the property and the values on the surface are such to insure that little work will have to be done to make the property self-supporting.

We have the following offerings of Coeur d'Alene stocks:  
**BENTON** **REINDEER**  
**TARBOX** **INDEPENDENT**  
**MOONLIGHT** **SNOWSTORM**  
**HEADLIGHT** **IDAHO LEAD SILVER**  
**ALAMEDA** **IDAHO-LOS ANGELES**  
**BULLION** **BIG CREEK**  
**GREAT NORTHERN** **WHIPPLE MOUNTAIN**

### We Handle All Coeur d'Alene Stocks

Coeur d'Alene stocks are very actively trading strength, and it is only a question of a very short time before they will be sold at great prices. We have recommended to our clients as good buys will be sold at greatly advanced prices. The outlook for a good market this spring is most promising and handsome profits will be made by those who get in now.

**GREAT NORTHERN** **WHIPPLE MOUNTAIN**

Have made more money for people who have invested in mining stocks than any other mining promoter in Los Angeles. At the present time I have the best opportunities for the mining investments that have ever been offered to the public.

The present time is a small but growing market in the country for ground pepper, dried fruit, grown especially in Hinsdale.

The product is imported in the form of dried fruit, which is very popular in the United States. The specimens are of young and very fine copper, and we are giving an opportunity to young men to give us an opportunity to buy shares in this company.

We are offering at 1/8 a share. Work is to be commenced at once on the property and the values on the surface are such to insure that little work will have to be done to make the property self-supporting.

## See the Bungalow

Are you aware that on our 3d floor is a fully finished, perfectly modern, built-in bungalow of cement? It has become one of the seven sights of the city, and hundreds visit it every week. We change the furniture every Monday, equipping it with every necessary piece of furniture, from a door-bell to a clock. If you have not yet seen it, come and bring your friends and see what can be done for four rooms in a modern California bungalow.

Watch for a Special Saturday Evening Next

## GOOD MONEY FROM WEEDS.

### DYES CAN BE MADE FROM MANY OF THEM.

Forty-four Millions of Dollars Paid for Drugs and Dyes Last Year That Could Have Been Made from Plants and Weeds.

We often wonder, says Secretary of State Wilson, why some of our wide-awake citizens do not take up the drug business especially in the United States. Their studies produced facts calculated to encourage investigation on a large scale of the market which gives a great deal of worthless and troublesome, while it possesses great value if properly used.

The average farmer has riches unthought of by his wife in the shape of weeds which, instead of being thrown away, can be sold for a good sum.

The product is used especially in the United States. Their studies produced facts calculated to encourage investigation on a large scale of the market which gives a great deal of worthless and troublesome, while it possesses great value if properly used.

The average farmer has riches unthought of by his wife in the shape of weeds which, instead of being thrown away, can be sold for a good sum.

The product is used especially in the United States. During the last two years the government at Ebenezer, N. C., grown during the last season between 200 and 300 acres of pepper, for wild pepper, probably not allowed to become too tall or too big. They were dug up and

at present time a small but growing market exists in this country for ground pepper, prepared from the pods of the plant. The market is limited, but the product is increasing in both the state and the ground condition, chiefly in the United States. During the last two years the government at Ebenezer, N. C., grown during the last season between 200 and 300 acres of pepper, for wild pepper, probably not allowed to become too tall or too big. They were dug up and

## Glory! Hallelujah! The Contract Has Been Signed!

## LUCERNE TRACT NEXT IN LONG BEACH

### CONTRACT SIGNED FOR SHIP PLANT.

Long Beach Secures a Great Industry for Inner Harbor.

Our prophecy comes true.

The pioneer shipbuilders of Lake Erie, the Craigs, come to Long Beach. Contingent upon that happening many great events shall ensue. Truly it is a memorable day in the history of Long Beach.

It is citizenship which makes the city. When you find a city whose enterprising people raise \$100,000 in two weeks to secure an immense project, like that of the Craigs, you can confidently invest in property there.

Three weeks ago we advised Los Angeles investors to buy lots in our Inner Harbor tract—the LUCERNE—a splendid subdivision for residence and mercantile purposes, just put upon the market. Prices are low.

**\$250 to \$425 For Inside Lots  
\$300 to \$550 For Corner Lots**

Terms are easy—one-quarter down, balance in three payments, six months apart. Before the second payment becomes due the entire LUCERNE TRACT will be sold, building begun, and values far advanced. If you buy to live there you will find it an admirable location. If you buy to build and rent you will find the demand for homes and stores increasing faster than construction can progress. If you buy to hold, you will make profits beyond ordinary expectations and equal to extraordinary luck.

We have two hundred lots to sell. Those who waited to see the ship plant contract signed are now tumbling over each other to get hold of property in our locality. Don't wait until prices advance. Buy now and make all the profits yourself. Choicest lots to those who pick first.

## DOW Cancer Cure

### THE DOW CANCER CURE

Cures Absolutely and Permanently Without Any Form of Operation

### OVER 500 CURES THAT STAY CURED

is the wonderful record of our remedy, and the hope it gives you. Our references are physicians, dentists, scientists and editors of note. Our proofs are cured patients after others had failed.

Call at once and see them before it is too late—saving both time and money.

Read what it has done for these men:

George Wilson, 122 Mary street, Pasadena, had a cancer near the eye. We cured him after a surgical operation had failed to bring relief.

L. L. Benson, M.D., 363 Ashtabula street, Pasadena, after all other known means had failed, was cured by us. He had two cancers on the face.

John McCarty, 267 Winona street, Pasadena, was cured by us, after three operations by Chicago's best surgeons had failed. We have hundreds of living testimonials right here in Los Angeles and environs who are more than pleased to testify to the efficacy of the treatment.

If you or any friend has cancer, tumor or any skin blemish, it will benefit you to call and see us.

The Cure is administered by our specialists. We have the exclusive use of this wonderful remedy. Examination Free.

## Mining News of the Week.

### FEDERATION'S BLUFF CALLED.

#### BISBEE MINES WEEDING OUT AGITATORS.

**Local Union Holds Meeting, but Elects no Officers and Dares Not Call a Strike, but Threatens to Brand as Scabs All Miners Who Refuse to Join.**

**BISBEE (Ariz.)** March 1.—Fully eight hundred idle miners have left this camp since the employing copper companies called the bands of the Western Federation to their banners. The miners are from Nevada. Men are still being driven by the big companies, a score or more at a time, and the camp is beginning to appreciate what business conditions would be in the event of a strike or lockout. The merchants have lost all credit and are devoting their honest attention to the collection of bills now due them.

The newly-chartered Bisbee miners' union, Local No. 108, had its first meeting Sunday afternoon, demanded by a few men of mine, two-thirds of whom were Americans, Spaniards or Italians. President was Joseph D. Cannon, formerly a restaurateur here, who had been elected delegate to Congress at the last Arizona election. The other principal figures were F. C. Rawlings, Jerome, the organization organizer, and D. W. Steele, who has started his paper at Douglas, particularly in the interest of downtrodden labor. It had been agreed to join all the local unions of the federation at the meeting, but this action was deferred. The meeting directed the sending of a telegram to the Federation's office in Denver, asking for its support in their defense. At the meeting was read a statement from James Kilwan, acting secretary and treasurer of the Federation, with headquarters at Denver. The message read:

"Press reports state that Bisbee miners are determined to stay, and the men who voted to join will do so as soon as they get their entire jurisdiction."

There is much speculation over the best move to be made by the union or the company. The miners are holding absolutely nothing concerning their plans, and Rawlings denies that he has, at present, any idea of what course to take. In case a strike would be futile from its inception, as a large majority of the miners of the camp prefer their country to the union wage scale, he would strongly urge union domination in company with the foreign and more ignorant of the men employed.

The Copper Queen and the Copper Queen and Calumet smelters at Douglas will not be far below normal, despite the small strike. It is believed that the heavy ore shipments are expected from the Phelps-Dodge mines near Naco, Sonora, Mexico. It is also believed that up to now ore hauls at Douglas are being drawn upon, while the Copper Queen is taking advantage of the low price of gold.

Belle—Contract 1st for additional 100 feet of development.

All Dope—Shaft down 200 feet and sinking.

Allis—Twenty-five-horse-power hoist at the diggings.

Belle—Contract 1st for additional 100 feet of development.

Gold Bullfrog—Building a thirty-five-ton mill, concentration and amalgamation. Other processes, a 400-foot tunnel, drifts, driving down 200 feet on the Gold Bar. Shaft down 200 feet on the Northport.

Globe—Ore cars without sorting and large consignment soon to go to market.

It is believed that the mine will eventually handle most of the ore from the Copper Queen claims, brought to it by an extensive railroad which is to be completed at once with the highest class of hoisting machinery.

#### SOLID SILVER.

**Sixty-Pound Nugget Picked Up by a Ranchman A Few Miles from Globe.**

**GLOBE (Ariz.)** A nugget of pure silver, sixty pounds in weight, has been found by a ranchman, William Mounts, near his home, a few miles from Globe. The mass of silver was lying on open ground where there had been some passing represented by miners and cattlemen. Nowhere in the vicinity is there appearance of an ore vein from which it could have come, but the location is believed to be near the old mine workings. Thomas unbroken in years past, there was a time when the district outside of Globe was renowned as its native "silver country." Numerous veins of rich silver were cored away at least \$100,000 in value.

Richmond Basin was so named because its owners cored away at least \$100,000 in silver veins.

All now unite in lauding the beautiful water city now being brought to a triumphant consummation by the unlimited use of money and nerve.

People who have visited every watering place in the world say that there is absolutely not one that will bear comparison with Naples.

### SUPERVISE SUPERVISORS.

#### ROADS ASSOCIATION IS NOW PERMANENT.

News Notice of Passage of the Good Roads Bill and Resolu-

tions of Governor's Signature.

Try to Educate Officials and

People to Its Importance.

Good organization was formed

by the Good Roads Asso-

ciation of Los Angeles county at a

meeting of the Chamber of Commerce.

Delegates representing all

the other incorporated towns in

the county were present.

The permanent organization

was organized by the

Chamber of Commerce and

the Board of Supervisors.

There was a contest over

the election of first vice-president be-

tween W. Blanchard of the local

Chamber of Commerce and Thomas

of the Pasadena Board of

Supervisors. W. Blanchard being elected by

majority and his vote made

upon motion of Mr. Earley.

R. Griffith of Azusa was elected

vice-president.

Mr. Earley, Chairman of the

Good Roads Committee, said

a few days and that this com-

mittee would appoint a secretary and

treasurer and call the first

meeting of the association for

February. In this month, Mrs.

Porter, of the Camino Real

Chamber of Commerce, was appointed to the committee.

William H. Earley was elected

acting secretary.

Number of representation is fixed

at five members of the Board

of Supervisors as members, three de-

legates from all municipal or county

chambers and delegates

from each of the forty-nine

towns in the county.

In the meeting centered in

by Mr. Blanchard of the

legislative committee

to arrangements to work for

the success of the association.

The committee consisted of

W. Blanchard and Hartley Shaw,

Judge J. D. Work, drew

committees reached Rec-

onend six or seven

already present.

"An

of the general interest

the State in good roads,"

the speaker. The advocates

actually boomed it with a

few words, but it had

no effect.

He was not "one" by

and was not "one," two

or three.

Program was received from

stating that the bill had

been practically without

opposition and was

before the Governor.

It was adopted unani-

mously and the signing of

Gov. Gillett.

Then told of the

bill in the Assembly.

the first bill introduced

last year, instead of

recent highway commis-

sioners. He stated that this

was brought about by the

delegation, "which was

of fruit that competes with oranges at all."

Don't  
Take  
Risks  
Here's  
A  
Sure  
Thing

No question about it—Crescent Rotary Steam Engine Stock. The engine that has solved the power problem that goes to \$1.50 in 3 days—in a year be worth \$5. Can be bought for \$1 per share.

Monday  
Tuesday  
Wednesday

In spite of the temporary poor car service, Eagle Rock has "come into its own." It is no longer necessary to urge people to see Eagle Rock—they are going by thousands to see it, and usually go again and again.

## Get the Best

"Deal with the man who does in his line the most business. There's a reason for it."

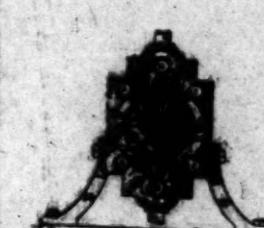

The Edwards & Winters Company have sold over half million dollars worth of Eagle Rock property since February, 1906. We have the best in Eagle Rock. It was mostly purchased long before the car line came to the valley. It is being sold as cheap or cheaper than low, undesirable property which we refused to consider at any price.

We are deliberately selling the best property in Eagle Rock at opening prices below its market value. We have an object in doing so. We control all the properties in Eagle Rock handled by our firm.

## No Other Agent in Eagle Rock Can Sell Them to You

For this reason you will be asked to buy inferior "bargains," and will be told that "all that tract is sold out."

In the meantime, we are selling, below value, from 15 to 30 good lots every week.
